**Psychology 460**  
**Counseling & Interviewing**  
**GROUP TASK #6**  
**Reflection and Summarization**

**Instructions:**
The skills of *reflection* and *summarization* will be demonstrated first. After the demonstration, break into groups of three. Assign each group member to either be a listener, observer or speaker for the first practice segment. Speakers must be able to talk about an event or experience for five minutes without stopping while the listener practices using the first skill, *reflection*. After five minutes, “time” will be called. Switch roles and have another person demonstrate the same skill. After each person has demonstrated *reflecting*, move on to the next skill, *summarizing*. After everyone in the group has demonstrated both of the skills, give feedback to your group members. Then answer the following questions:

How did your group feel about practicing these skills?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

Were there any problems?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

Was there anything you did not understand?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

How did it feel to be the observer/listener/observer?

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

Was feedback helpful?
