**Environmental, Health and Safety Engineer**

Northrop Grumman Corporation  
1111 West Third Street  
MailStop: B116/7840  
Azusa, California 91702

This position assists in implementation of environmental and occupational safety procedures. Key functions include preparing and presenting environmental and safety related training, conducting inspections, managing hazardous waste, maintaining databases for chemical inventory and material safety data sheets, conducting ergonomic evaluations, co-coordinating emergency management activities, identifying hazardous workplace conditions and ensuring that corrective actions are taken. The successful candidate will be relied upon to plan and assist in performing reviews of new chemicals, processes, products and facilities.

The candidate must have a Bachelor's or Master's degree in Occupational Health and Safety, environmental management or a related field. The superior communicator we seek must be able to deal effectively with all levels of operations and management. Proficiency in Microsoft applications and excellent oral and written communication skills is essential. Experience in implementing EH&S programs in a manufacturing environment is desired. Candidate must be a U.S. Citizen.

Please send resumes to Jason Quon at [jason.quon@ngc.com](mailto:jason.quon@ngc.com) or call (626) 812-1150 with any questions.
