

Classroom Technology Survey

Winter '09

Question 14

Would you use any of the following technologies if they were available in your classroom setting? Other (please specify)

1. I can play CD/DVD directly on my laptop
2. I need the time to learn how to use the computer in classroom
3. I still have audiocassettes, so I bring my own player.
4. All rooms should have remote clickers. I have to bring my own.
5. iPod dock or iPod connection to tuner
6. Smart Board (if I was trained...)
7. I've never been in a classroom on campus equipped with a document camera. I wish.
8. My computer in my office is so old that it doesn't even have a port for a flash drive and the fact that there is nothing to connect my office computer with the classroom computer doesn't allow me to use the computer in the smart classroom.
9. I avoid wireless in the class because it is SR. lectures...
10. Touch-screen display panel for in-class annotation
11. Q 12 and following are confusing about computer - a stand alone I would never use, my laptop computer I would always use - this will skew your data
12. I may not understand what is meant by computer...I mean using my laptop, not a classroom computer
13. Microphone & camera to record lecture and class
14. Web Camera - to do two ways with professionals who can't come to class.
15. Smart board
16. The rooms I teach in have a black box but aren't connected to a computer and don't have web access. I don't have a personal laptop to bring.
17. A projector cables that reach to laptops
18. Video camcorder with projected playback

Question 14

19. I already pay to use services like "filesanywhere" and "mobileme" galleries
20. Sound (CD) player (although it works on the computer)
21. Scanner
22. I need Internet access
23. I need one for a simulation I run once/semester
24. Automated podcast solution, blue-ray HD DVD player, wired network connection (the student use of wireless can severely limit my throughput), "audio in" from wireless mic (to record using Camtasia, etc.)
25. Computers for students (like the computer lab in JR247)
