

Finding a Name:

To search for a name on a PC, hold the "Ctrl" key and then hit the "F" key. Then type the last name. On a Mac hold the "Command" key and then hit the "F" key. Then type the last name. There are slight differences in options between browsers in this Find function.

On the I-phone using the Safari browser click the small box icon with the arrow coming out of it at the bottom of the screen. When the popup screen appears from the bottom, scroll down to the Find on Page option and select it. Then type the name you wish to see.
