

BIOSPHERE

The Weekly Bulletin of Biology

Biology Colloquium

Friday March. 27, 2 PM in EH2132

Dr. Peggy Cotter

Department of Biology, University of California, Santa Barbara

“Serendipitous Discovery of an Immunoglobulin-binding Autotransporter Protein in *Bordetella bronchiseptica*”

- **Meeting Presentations** - Dr. Janet Kubler was an invited speaker at the Biomimicry Swarm, in San Diego, CA. The meeting is an international gathering of professionals in business, design, engineering, government and education.
- **Students Moving Forward** - Anthony Dauilo, an undergraduate MARC*USTAR student in Dr. Sean Murray's lab, has been accepted to UC San Diego's PhD program in the biological sciences. He will begin graduate school there in Fall 2009.
- **Professional Service** - Dr. Steve Oppenheimer was invited to be Guest Editor for an entire volume of *Infectious Disorders-Drug Targets*. This is a 4.04 impact factor journal in the Bentham Science Ltd. journal series that is Nobel laureate endorsed.
