Interdisciplinary Program

B.A., Liberal Studies

The Major

The Liberal Studies Program is a broad undergraduate liberal arts major leading to the B.A. degree. It is an interdisciplinary major with a balance of studies in the language arts, natural sciences, mathematics, social sciences, humanities, visual arts, and performing arts. Courses are drawn from various academic departments throughout the university. The Liberal Studies major can prepare a student in the subject matter required for a teaching credential in elementary or special education (Teacher Preparation Option) or it can provide a general liberal arts degree (General Studies Option).

Student Learning Outcomes of the Undergraduate Program

1. Students will acquire a breadth of knowledge across the range of disciplines included in the major and will pursue greater depth in their area of specialization.
2. Students will explore how knowledge across multiple disciplines can be connected.
3. Students will develop the ability to formulate their own goals for continued learning and inquiry based on a foundation of intellectual curiosity.
4. Students will understand and appreciate the positive value and essential role of diversity.
5. Students will be able to think critically and creatively.
6. Students will be able to write and speak clearly, coherently, and thoughtfully.
7. Students will be able to read, understand, and evaluate all forms of text.

In Addition, as described in the California Standards for the Teaching Profession, Liberal Studies ITEP teacher candidates working with K-12 Students will be able to:

1. Make subject matter comprehensible to students.
2. Assess student learning.
3. Engage and support students in learning.
4. Plan instruction and design learning experiences for students.
5. Create and maintain effective environments for student learning.
6. Develop as professional educators.

Teacher Preparation Option

Students interested in careers as elementary or special education teachers should select one of the Liberal Studies Teacher Preparation Option programs. All provide a B.A. in Liberal Studies, including preparation in the “multiple subjects” taught in self-contained classroom settings. Students in the Teacher Preparation Option programs take courses in the language arts, natural sciences, mathematics, social sciences, humanities, visual and performing arts, human development, physical education and health. By the end of the degree program, students have a foundation of basic knowledge in all of these areas. Students

pursuing the Teacher Preparation Option are not required to meet the university General Education and Title 5 requirements. By completing the Liberal Studies major, students are considered to have fulfilled those requirements.

There are three Teacher Preparation Options available: **the Pre-Credential Option, Integrated Teacher Education Program (ITEP) Junior Option, and Integrated Teacher Education Program (ITEP) Freshman Option.** Students in the Pre-Credential Option earn their B.A. while students in the ITEP Options earn both the B.A. degree and a credential at the same time. ITEP students can earn either a Preliminary Multiple Subject Credential or a Preliminary Education Specialist Credential (Mild/Moderate Disabilities, Moderate/Severe, or Deaf and Hard of Hearing).

Most students interested in becoming teachers begin with the Pre-credential Option. They may complete the Pre-Credential Option and graduate with a B.A. degree in Liberal Studies. Alternatively, students may transition from the Pre-Credential Option into ITEP-Junior Option during their junior year and graduate with a B.A. in Liberal Studies and their Preliminary Credential, all at the same time.

In order to transition from the Pre-Credential Option to ITEP-Junior Option, students must gain admission to the CSUN Credential Program. Pre-Credential Option provides a B.A. degree in Liberal Studies only and is best suited for students who wish to enroll in a teaching credential program after they earn their bachelor’s degree. This program requires 107 units of specified coursework toward the B.A. degree of 120 units. The Pre-Credential Option is also the gateway into the ITEP-Junior Option.

The ITEP-Junior Option is a program for college juniors who would like to complete their B.A. and credential simultaneously. Students planning to join ITEP-Junior Option, should first complete most of their Lower Division Pre-Credential requirements and then gain admission into CSUN’s Credential Program. ITEP-Junior Option students take professional methods courses that are blended and linked with subject matter courses to complete their degree and credential. The program can be completed on a full or part-time basis. In the ITEP-Junior Option, a B.A. and Preliminary Multiple Subject Credential can be earned in 129 units; B.A. and Level I Preliminary Education Specialist Credential:

- Mild-Moderate Disabilities=135 units
- Moderate-Severe Disabilities=135 units
- Deaf and Hard of Hearing Disabilities=148 units

Students will earn 9 (MS), 15 (SPED/Mild-Moderate, Moderate Severe disabilities), or 28 (SPED/Deaf and Hard of Hearing) Post-Baccalaureate units in the ITEP-Junior Option Program.

The ITEP-Freshman Option is a program for entering freshmen who are ready for college-level courses in mathematics and writing. It is designed for freshmen who are certain about their career choice when they begin college. ITEP-Freshman Option students remain with their entering cohort throughout their four years, including one summer, taking many courses exclusively designed for them. The program includes field experience in elementary classrooms every semester guided by education faculty, as well as the opportunity for participation in a close-knit learning community throughout the college experience. The ITEP-Freshman Option requires 129 units for a B.A. degree and Preliminary Multiple Subject Credential.

BA and Level I Preliminary Education Specialist Credential:

- Mild-Moderate Disabilities= 135 units
- Moderate-Severe Disabilities= 135 units
- Deaf and Hard of Hearing Disabilities= 148 units

Students will earn 9 (MS), 15 (SPED/Mild-Moderate, Moderate-Severe disabilities), or 28 (SPED/Deaf and Hard of Hearing) Post-baccalaureate units in the ITEP-Freshman Option.

General Studies Option

The General Studies Option is designed for students interested in a broad liberal arts education with studies in many subject areas rather than concentrating on one field of study. Students selecting the General Studies Option may be interested in pursuing careers in business, law, government, social services, non-profit services, arts, and many other careers. The General Studies Option students complete the General Education and Title 5 requirements outside of the major.

Careers

The Liberal Studies Teacher Preparation Option programs are designed for students interested in teaching children in grades K through 6 or special education students in grades K-12. Traditionally, elementary school teachers function in self-contained classrooms and teach a variety of subjects. The Liberal Studies major provides students with a broad undergraduate education to prepare them to teach "multiple subjects." The General Studies Option is a broad liberal arts program that prepares students for a variety of career options. Students interested in the General Studies Option should discuss academic and career planning with their Liberal Studies Advisor.

Academic Advisement

Advisement is a critical part of the Liberal Studies Program. In order to complete the major efficiently, students need advisement throughout their program of study. Students intending to transfer to CSUN from community colleges should seek advisement at their community college, specifying their intention of transferring to CSUN Liberal Studies. All new Liberal Studies majors are required to complete a Liberal Studies workshop before making an appointment with an individual advisor. Workshops are available online and are scheduled on a regular basis throughout the year. Call the Liberal Studies office for more information or to schedule an appointment with one of the academic advisors Martha Campos, Antonio Gonzalez, or Sima Sadafi.

The Liberal Studies Program supports the concept of international education and encourages students in all Liberal Studies Options to investigate opportunities for overseas study. Certain courses taken at CSU International Program Study Centers in foreign countries are equivalent to courses in the Liberal Studies Program and may be used to fulfill some of the requirements for the major. Students should consult the International Program Bulletin available in the Office of Student Development and International Programs, a Liberal Studies advisor, or the campus International Program Advisor for more information.
