

## **POSTDOCTORAL POSITION IN ORGANOMETALLIC CHEMISTRY**

A postdoctoral research position is available immediately at California State University Northridge (CSUN; <http://www.csun.edu/chemistry>) for a scientist with expertise and proven record of accomplishments in organometallic/organic chemistry. The position requires Ph.D. in experimental organometallic and/or organic chemistry and will involve a fundamental study of transition metal-mediated radical reactions (Co, Mo, Fe, Cr, W). Send CV, list of publications and a list of three references to Dr. Gagik Melikyan (<http://www.csun.edu/chemistry/chemggm.html>) at [hchm025@csun.edu](mailto:hchm025@csun.edu).
