

Dear CSUEU Members and Fee Payers:

My recent letter on dues reduction suggested that members call the Membership department at (866) 763-1452, ext.300, and that fee payers call their campus payroll offices for any and all questions. It has come to my attention that members and fee payers alike should direct any questions to the Membership Department.

The intent of the letter was to inform you that the deduction may not appear on your August pay warrant, in which case the necessary adjustments will be made in September.

The reduction is a multi-step, time-sensitive process involving several different offices. We very much appreciate the work that payroll techs at all the campuses are doing right now to implement the reduction. By calling the Membership Department rather than campus payroll offices with our questions, we can free up these employees to do their important work.

Thank you,

Loretta
