A project such as the Student Expenses and Resources Survey (SEARS) could not be accomplished without the cooperation of the postsecondary education segments within the State of California. SEARS data is of timely and great value to the higher education community. We would like to recognize certain individuals and organizations for their assistance in the development and the execution of the survey. Without their assistance this survey could not have been possible, especially in such a timely manner.

STUDENT EXPENSES AND RESOURCES SURVEY (SEARS)

INTRODUCTION

The California Student Aid Commission, in partnership with California's five segments of higher education: the California Community Colleges (CCC), the University of California (UC), the California State University (CSU), the Association of Independent California Colleges and Universities (AICCU), and the private career colleges (PCC), conduct a Student Expenses and Resources Survey (SEARS) every three years to determine the actual costs associated with obtaining a postsecondary education in California.

Triennially, the Commission is required to collect Student Expense and Resources Survey data that is used in the development of Student Budgets. Data gathered through SEARS provides the Legislature, Department of Finance, Legislative Analyst's Office, the segments of higher education, media, and other interested parties with current data on the demographic characteristics, financial status, and fiscal concerns of students. The Commission and other State agencies benefit from the SEARS results because they provide current data to track trends in student borrowing, family income, and financial resources that cannot be obtained elsewhere. The survey also allows the state to identify new trends in student expenses, such as computer use, and book cost. The Commission uses this data to work collaboratively with the segments and other entities, such as California Postsecondary Education Commission (CPEC), to analyze current issues in higher education.

BACKGROUND

The California Student Aid Commission is the state's principal provider of intersegmental statewide grant aid to postsecondary students. Founded in 1955 as the California State Scholarship Commission, the Commission's primary programmatic responsibilities include administration of the Cal Grant program, the Chafee Grant Program and several targeted state scholarship and loan forgiveness programs. The 15-member Commission also oversees the activities of its nonprofit student loan services auxiliary, EDFUND.

The Commission is required by Chapter 403, Statutes of 2000 (Senate Bill 1644) and California Education Code § 69432.9 (b) (2) to submit this report to the Legislature and the Governor which reflects up-to-date student expense information on the actual costs of obtaining a postsecondary education in California. Additionally, SEARS identifies available resources that students and families have to assist in paying college expenses. The data is required in order to generate the student expense budgets used to determine a student's financial need for the Entitlement and Competitive Cal Grant Programs, as specified in Education Code 69432.9(b)(2) that specifies that:

> *Financial need is defined as the difference between the student's cost of attendance as determined by the commission and the expected family contribution. The calculation of financial need shall be consistent with the commission's methodology for determining financial need for the 2000-01 academic year as established by Title IV of the federal Higher Education Act of 1965, as amended (20 U.S.C. Secs. 1070 et seq.).*

METHODOLOGY

Commission staff in partnership with representatives from each segment, the California Postsecondary Education Commission and other interested parties established an advisory committee. The Committee ensured that the questions were relevant to the data being gathered, clearly worded, and effective. Additionally the segments were responsible for providing the Commission with datasets and additional contacts within their segment.

QUESTIONNAIRE

Segments were given the option of a Web-based survey or a paper survey. The paper version was redesigned to enable automated data-capture. Additionally each segment opting for an on-line survey could also request a paper questionnaire for those students without Internet access.

The data collected was to reflect student responses to questions that are considered "core" subjects and are essential to the Commission's administration of the Cal Grant programs. Core subjects include age, veteran status, student marital status, parent marital status, number of dependents, and graduate status (required to determine dependency), educational and living expenses, student and family financial resources, and housing arrangements while attending college.

Students were asked questions about their basic demographic characteristics, work and volunteer patterns, living expenses, and their resources for the current academic year. Students were also asked about their parents, including their education level, number of dependents, marital status and income. Each segment was invited to add additional questions to reflect any specific needs of their student population.

DATA COLLECTION AND ADMINISTRATION

California's five segments of higher education are vastly different, therefore, the administration of the SEARS varied by segment. The following is a brief description of the five segments of higher education:

California Community Colleges

The California Community Colleges (CCC) System provides educational, vocational and transfer programs to more than 2.6 million students. Constituting the largest system of higher education in the world, the California Community Colleges System is currently comprised of 72 districts, 109 campuses, 65 approved educational centers, and 20 separately reported district offices. The primary mission of the CCC is to offer academic and vocational education at the lower division level for both recent high school graduates and those returning to school.

Survey Approach - The Commission signed an Interagency Agreement with the California Community Colleges Chancellor's Office (CCCCO) for the administration of the 2006-07 SEARS. Under this agreement, the CCCCO researcher was to administer approximately 15,000 in-class surveys at a representative selection of community colleges between February 1, 2007 and May 30, 2007. Unforeseen circumstances led the CCCCO to modify their planned administration of the survey. They contacted the president of the Academic Senate at selected schools to request their assistance. The presidents were able to administer 4,875 of the 15,000 surveys.

Of the 4,875. were administered and 2,642 or 54.2 percent returned a completed questionnaire.

University of California

The University of California (UC) system has ten campuses that serve more than 200,000 students. UC's fundamental missions are teaching, research and public service. The UC educates students at all levels, from undergraduate to the most advanced graduate and first professional degree programs. Undergraduate programs are available to all eligible California high-school graduates and community college transfer students who qualify to attend UC.

Survey Approach - The UC Office of the President (UCOP) specified the number and type of students they wanted to include in the UC sample. The undergraduate sample was stratified solely by campus, while the graduate sample was stratified by campus and type of degree program (academic or professional). At each campus, the Director of Institutional Research was responsible for drawing the random sample according to the UCOP's specifications. The UCOP chose to administer the survey via the web only for both undergraduate and graduate students.

The Commission developed a postcard announcing the upcoming survey and mailed it to undergraduate students a week before the survey Web site was launched. Graduate students received a letter signed by Diana Fuentes-Michel, Executive Director of the California Student Aid Commission, and the President of the University of California. The UCOP then sent an email announcement requesting students' participation. A few days later, students received an official email invitation with an active link, unique identifier, and a password. Students received up to three email messages regarding SEARS.

Of the 23,364 UC students surveyed, 8,467 or 36.2 percent returned a completed questionnaire.

California State University

The California State University (CSU) is the largest (23 campuses), most diverse, and one of the most affordable public university systems in the country for students seeking a baccalaureate education and for those who seek professional training as teachers, nurses, social workers, and engineers. The CSU awards more than one-half of the bachelor's degrees and a third of the master's degrees granted in California each year. CSU enrollment totaled over 340,000 students in fall 2006.

Survey Approach - The CSU Office of the Chancellor was responsible for developing the CSU survey and sample files. The CSU used a web/paper combination survey approach. Students with email addresses received an official email invitation with an active link, unique identifier, and a password. Non-respondents were sent a reminder email within ten days. Students who did not have a valid email address on file and students who did not respond to the invitation or reminders were sent a paper questionnaire.

Of the 21,028 students surveyed, 6,083 or 29 percent returned a completed questionnaire.

Independent Colleges and Universities

The Association of Independent California Colleges and Universities (AICCU), which serves as the unified statewide voice of independent higher education in California, worked as a liaison between AICCU member schools and the Commission. Of the 81 member schools, 51 chose to participate.

Survey Approach - Research staff at each participating school provided a random sample of students comprised of at least ten percent of their enrollment or 100 students. Sample sizes ranged from 20 students at Western University of Health Sciences to 3,828 students from Saint Mary's College of California. The AICCU schools used a web/paper combination survey approach. Students with email addresses received an official email invitation with an active link, unique identifier, and a password. Non-respondents were sent a reminder email within ten days. Students who did not have a valid email address on file and students who did not respond to the invitation or reminders were sent a paper questionnaire.

Of the 18,309 AICCU students surveyed, 4,467 or 24.4 percent returned a completed questionnaire.

Private Career Colleges

The Commission contacted all 112 Cal Grant eligible Private Career Colleges (PCC) to request their participation in the 2006-07 SEARS. Of the 112 PCC, 92 schools agreed to administer the survey.

Survey Approach - There were two major changes in the administration of the PCC survey in 2006-07. As advised by the PCC representative to the advisory committee, Commission staff used a web-only approach for the PCC schools and the Commission used donated gift cards as an incentive for students to fill out the survey.

Each of the 92 schools received postcards containing the URL and a unique password to distribute to their students. Students were asked to take the postcard to a computer lab or home and complete the survey as soon as possible. Once completed, the students were to return the postcard to their school with their name and telephone number so that they would be entered into a drawing for the gift cards.

Unfortunately, the PCC survey postcards were not distributed consistently. While some schools followed survey guidelines and discussed the purpose and deadlines with their students, other schools chose to leave the postcards on a counter for students to pick up as they walked by. This latter process conceivably resulted in some schools choosing to ignore our repeated requests for participation.

It is clear that a web-only approach for the PCC proved to be inappropriate. In the past, an in-class survey provided a significant, although declining, response rate, but it was burdensome for the schools to take valuable class-time to administer. Commission staff will contact additional PCC representatives to participate on the advisory committee from for future survey years in order to identify the best practices for surveying this student population.

The Commission received a total of 314 surveys from 47 of the 92 participating schools. PCC data are not included in the casebook due to the insufficient number of responses received.

DATA SUMMARY

Commission staff performed data verification and standardization once the Web based data was downloaded and the paper surveys were either scanned or hand-keyed into the database. California's five segments of higher education are vastly different; therefore, each segment and data-capture method was processed differently. The five resulting segmental datasets were then checked for duplicate responses such as when a student began or completed both a Web and paper survey. The most complete survey was retained. Finally, incomplete surveys were reviewed and kept or deleted on a case-by-case basis. Data Reponses for California's five segments of higher education for the 2006-07 SEARS Data Casebook are included in the preceding pages and summarized in the table noted below.

2006-07 SEARS Response Rate Summary

	Sample Size	Useable Returns*	Response Rate
California Community Colleges	4,875	2,642	54.2%
University of California	23,364	8,467	36.2%
California State University	21,028	6,083	28.9%
Independent Colleges & Universities	18,309	4,468	24.4%
Private Career Colleges	9,523	314	3.3%
All	77,099	21,974	28.5%

*A useable return is a survey that has all of the demographic and expense questions completed.

CONCLUSION

The in-class survey appears to be a sound approach for reaching CCC students, but the Commission and the CCCCO need to establish a way to administer all of the surveys in a timely manner. The web-only survey seems to be the appropriate methodology for reaching UC students. The CSU submitted approximately 80 percent of all survey responses via the web. The AICCU schools submitted 85 percent of all survey responses via the web. It may be possible to administer a web-only version to the CSU and AICCU student population in 2009-10. The Commission will need to contact additional representatives from the PCC segment to be asked to join the SEARS Advisory committee for future survey years in order to identify the best means for reaching PCC student population.

Lastly, Commission staff are already looking ahead to the 2009-10 Student Expenses and Resources Survey. On-going discussions about the 2006-07 survey process are providing a valuable list of what worked well and what did not. At the same time, the Commission's Grant Advisory Committee (GAC) will be reviewing the methodology for the nine-month student expense budgets, which uses SEARS data. The results from this review may change the way questions are asked, the adding of additional questions, or the recommendation of pursuing a different data source. Additionally Commission staff will contact additional representatives from the various educational segments in order to identify the best practices to reach the varied and diverse student populations represented through each segment.

Question for Tables:
W-21, U-21, and M-21

What will be your total income for the current academic year? ***Please estimate for the nine-month period*** *while you are attending school (e.g., September through May or October through June).* As previously noted, ***DO NOT*** include any money received through student loans or grants, scholarships or fellowships. Include college work-study and assistantship earnings. If you are married, include your spouse's earnings.

Question for Tables:
W-23, U-23, and M-23

What will be the total amount of scholarships, fellowships, and grant assistance awarded to you for the current nine-month academic year? Include Pell Grants, Cal Grants, SEOG, or EOPS grants, and any other gift aid (money you do not have to repay) you received or will have received. If an employer is paying for education expenses, include this amount.

Question for Tables:
W-27, U-27, and M-27 (Previous educational debt)
W-28, U-28 and M-28 (Spouse's previous educational debt)

Excluding borrowing for the **current academic year**, what is your outstanding total debt for education and living expenses in **previous academic years**? Include loans from educational institutions, federal government, banks, or from friends or family, as well as credit card charges that **have not yet repaid**. If you are married, please tell us how much your spouse has already borrowed.

TABLE M-28: MEAN AND MEDIAN SPOUSE'S BORROWING IN PREVIOUS ACADEMIC YEARS BY SEGMENT, COURSE LOAD, AND DEPENDENCY STATUS

By definition, a dependent student is not married. Although some dependent students with a marital status of separated, divorced, or widowed reported that their spouse had previous educational debt, the numbers are small and are not reported here.

Question for Tables:
W-48, U-48, and M-48

What are your **monthly average** expenses for transportation to and from classes and work (e.g., bus fare, train fare, gasoline, tolls, parking, etc.) during the current academic year? If your campus includes transportation costs in your fees, do **NOT** include them here. **Do NOT** include car payments, repairs, insurance, or registration.

California Community College

STUDENT EXPENSES AND RESOURCES SURVEY

2006-2007 ACADEMIC YEAR

Dear Community College Student:

The California Student Aid Commission, in partnership with the California Community Colleges Chancellor's Office, conducts a Student Expenses and Resources Survey (SEARS) every three years to determine the actual costs associated with obtaining a postsecondary education in California. Data provided by students in prior years have been used to provide the Legislature with an accurate picture of the cost of attending college in California, which has enabled them to make informed decisions about student financial aid policy.

You and your fellow classmates have been selected to take part in this study. Because it is important to understand the costs associated with a wide variety of financial aid programs, **your answers are vital to this project** and your help is very much appreciated.

- It is critical that you respond *regardless* of whether or not you are receiving any student financial aid.
- The responses you provide will in no way affect any student financial aid you may be receiving.
- Your responses to these questions are confidential and will not be individually identifiable.

Thank you for your help with this very important project.

Sincerely,

Diana Fuentes-Michel
Executive Director
California Student Aid Commission

INSTRUCTIONS:

- Please read and follow carefully all directions. Indicate your answer to each question by marking the appropriate circle. For each answer, please fill in marks like this: ● not like this: ⊗ ⊘ ✓
  The survey results will be tallied using a scanning system. Marks that extend outside the circle can be misread, making the results less accurate. Please use **black ink pen or dark lead pencil and do not fold or remove pages.**
- Please answer **every** question and mark only one circle per question unless otherwise indicated. If you are not sure of an answer, **give us your best estimate**. There are six sections on this questionnaire and it should take about thirty minutes to complete.
- If you would like to provide additional details or have comments, please write ONLY in the Comments Section on the last page.

Thank you on behalf of all California Community College students.

Section I: Demographic Information

In this section we ask about your background and current experience at college. The questions may seem personal, but we have to ask them in order to use the rest of the information effectively. Everything on this survey is held ***in strict confidence*** and is used only for research purposes. Only aggregated data from all respondents will be compiled. ***No information about individual respondents will be used for reporting purposes.***

California State Universities

STUDENT EXPENSES AND RESOURCES SURVEY
2006-2007 ACADEMIC YEAR

Dear California State University Student:

California State University and the California Student Aid Commission conduct a Student Expenses and Resources Survey every three years to determine the actual costs associated with obtaining a postsecondary education in California. Data provided by students in prior years have been used to provide the Legislature with an accurate picture of the cost of attending college in California, which has enabled them to make informed decisions about student financial aid policy.

You have been randomly selected from a sample of students to take part in this study. Because the selection process was designed to obtain a representative cross-section of all students, no one can substitute for you. **Your answers are vital to this project** and your help is very much appreciated.

- It is critical that you respond *regardless* of whether or not you are receiving any student financial aid.
- The responses you provide will in no way affect any student financial aid you may be receiving.
- Your responses to these questions are confidential and will not be individually identifiable.

Please complete the questionnaire and mail it **as soon as possible.** No postage is necessary.

Thank you for your help with this important project.

Sincerely,

Diana Fuentes-Michel
Executive Director
California Student Aid Commission

INSTRUCTIONS:

- We are interested in your educational experiences during the **current 2006-07 academic year**.
- Please read and carefully follow all instructions. Indicate your answer in each question by marking the appropriate circle. For each answer, please fill in marks like this: ● not like this: ✗ ⊘ ✓ The survey results will be tallied using a scanning system. Marks that extend outside the circle can be misread, making the results less accurate. Please use **black ink pen or dark lead pencil. Please do not remove pages.**
- Please answer **every** question and mark only one circle per question unless otherwise indicated. If you're not sure of an answer, **give us your best estimate**. There are six sections on this questionnaire and it should take about thirty minutes to complete.
- If you would like to provide additional details or have comments, please write ONLY in the Comments Section on the last page.
- If you need assistance, you may contact us via e-mail at sears@csac.ca.gov. We will contact you as soon as possible.
- Please return your completed questionnaire with the mailing address information intact. When you have completed the questionnaire, **fold and seal** it so that the return address shows on the outside, and mail it **as soon as possible**.

Thank you on behalf of all California State University students.

Section VI: Student Opinions

This last section is used to gather your opinions on issues that the California State University is studying and to allow for any comments you may have.

60. Please think back to the last time you applied for admission to this school. At the time you were applying, which type of educational institution did you **really want to attend**?

0	The California State University campus I am now attending.	4	A California Community College.
1	A different California State University campus.	5	A California private trade, business, or vocational school.
2	A University of California campus.	6	An out-of-state or foreign college or university.
3	A private or independent college or university in California.		

61. If you are **NOT** currently attending the college you really wanted to attend, what is the **single most important** reason?

0	I was denied admission.	4	The college was too far away or too close to home.
1	I could not afford to attend.	5	I did not receive any personal attention or interest from the college.
2	I could not get the classes, courses or programs that I wanted.	6	The classes conflicted with my work schedule.
3	I received late notification of admission or housing.	7	Not applicable.

62. Year-round operations would enable you to enroll term after term without taking a summer break. Attending school in this manner could allow you to complete your degree or credential program up to one year earlier than traditional operations. If you rely on financial and, and if financial aid policies can be adjusted to accommodate year-round attendance, would you be interested in enrolling year-round?

0 Yes 1 No

63. Which one of the following presents the greatest obstacle to reaching your educational goals? *(Please select just one.)*

0	Campus-related factors (such as course activity, availability of courses, instructors, advising, support services, etc.)
1	Academic and educational factors (such as lack of adequate preparation for college, lack of proper motivation, poor choice of major)
2	Financial factors
3	Other personal factors (such as family obligations, job, personal problems, etc.)
4	I do not see any obstacles to completing my education

If you are an undergraduate student, thank you for your participation!

Please fold, seal, and return this questionnaire at your earliest convenience.

Graduate students, please continue! We have a few more questions.

64. For the **current academic year**, what are your total out-of-pocket expenses for additional school-related laboratory or scientific equipment, machinery, tools, or clothing? Do not include any such expenses covered by grants or other funding.

STUDENT EXPENSES AND RESOURCES SURVEY
2006-2007 ACADEMIC YEAR

Dear Independent College Student:

You have been randomly selected to participate in this year's Student Expenses and Resources Survey (SEARS). Your responses are confidential.

Your school and the California Student Aid Commission conduct SEARS every three years to help the state determine the actual costs associated with obtaining a college education in California. Data collected from students are combined and analyzed; the analysis is then provided to the Governor and Legislature to help them set student financial aid policies. Understanding the actual college costs and the profile of students who attend California institutions of higher learning is critical to developing fee and financial aid policy.

By completing this survey you will be automatically entered into a random drawing for the following prizes:

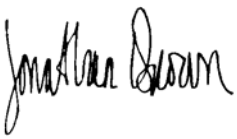
- I-Tunes gift certificate (one student per campus).
- $250 gift certificates to their college bookstores (two students at private colleges).

It is critical that you respond regardless of whether or not you are receiving any student financial aid. The responses you provide will in no way affect any student financial aid you may be receiving. Your responses to these questions are confidential and will not be individually identifiable.

The selection of students is designed to obtain a representative cross-section of all students. Because of the need for accurate and representative data, no other student can take your place. Your answers provide important information to the State of California, and your participation is vital to the success of SEARS.

Thank you for your help with this important project.

Sincerely,



Jonathan Brown
President
Association of Independent California
Colleges and Universities

INSTRUCTIONS:

- We are interested in your educational experiences during the **current 2006-07 academic year**.
- Please read and carefully follow all instructions. Indicate your answer in each question by marking the appropriate circle. For each answer, please fill in marks like this: ● not like this: ✗ ⊘ ✓ The survey results will be tallied using a scanning system. Marks that extend outside the circle can be misread, making the results less accurate. Please use **black ink pen or dark lead pencil. Please do not remove pages.**
- Please answer **every** question and mark only one circle per question unless otherwise indicated. If you're not sure of an answer, **give us your best estimate**. There are six sections on this questionnaire and it should take about thirty minutes to complete.
- If you would like to provide additional details or have comments, please write ONLY in the Comments Section on the last page.
- If you need assistance, you may contact us via e-mail at sears@csac.ca.gov. We will contact you as soon as possible.
- Please return your completed questionnaire with the mailing address information intact. When you have completed the questionnaire, **fold and seal** it so that the return address shows on the outside, and mail it **as soon as possible**.

Thank you on behalf of all California Independent College and University students.

Section I: Demographic & Enrollment Information

In this section we ask about your background and current experience at college. The questions may seem personal, but we have to ask them in order to use the rest of the information effectively.
