

**CALIFORNIA STATE UNIVERSITY, NORTHRIDGE**

**Referring yourself or a parent that has a deaf or hard of hearing child?**

Family Focus Resource Center is one of 34 Early Start funded Family Resource Centers throughout California that offer parent-to-parent support, education and resources to families of children with disabilities, special health conditions or other special needs. The Deaf Education And Families Project at FFRC is specifically geared toward families raising deaf or hard-of-hearing children. We offer information, resources, education, support, training, a newsletter, and other services you might find helpful.

Family's E-mail address: \_\_\_\_\_

Additional information:

We provide parent-to-parent support to families with children birth-age 22. We do our best to reach out and connect with every referral we receive. Because of our time constraints, we cannot confirm with professionals that we've made connections with families they refer. Our first priority is to families with children birth-3 years. **We appreciate the referrals and thank you for the work you do.**
