

# Call for Posters - GD 2015

23rd International Symposium on

# **Graph Drawing and Network Visualization**

September 24-26, 2015 - Los Angeles, CA, USA http://www.csun.edu/gd2015/

**Graph Drawing** is concerned with the geometric representation of graphs and constitutes the algorithmic core of **Network Visualization**. Graph Drawing and Network Visualization are motivated by applications where it is crucial to visually analyze and interact with relational datasets. Examples of such application areas include social sciences, Internet and Web computing, information systems, computational biology, networking, VLSI circuit design, and software engineering.

The International Symposium on Graph Drawing has been the main annual event in this area for more than twenty years. This year the Steering Committee of GD decided to extend the name of the conference from the "International Symposium on Graph Drawing" to the "International Symposium on Graph Drawing and Network Visualization" in order to better emphasize the dual focus of the conference on combinatorial and algorithmic aspects as well as the design of network visualization systems and interfaces.

The conference will be hosted by the California State University at Northridge, in Los Angeles, CA, from September 24 to 26, 2015. Researchers and practitioners working on any aspect of graph drawing and network visualization are invited to contribute papers and posters and to participate in the symposium and the graph drawing contest.

#### **Posters**

We invite authors to submit posters on graph drawing, network visualization, and related areas. The poster session will provide a forum for the communication of late-breaking research results (which may also appear elsewhere) to the graph drawing community. Authors of posters should prepare an abstract (up to two pages in the LNCS style) that must be submitted together with the poster. Abstracts of accepted posters will appear in the conference proceedings (two pages), but will not be made available for indexing. The maximum size for a poster is A0 (84.1 cm x 118.9 cm). The posters must be in portrait mode.

#### **Poster Submissions**

Each submission consists of two pdf files (the two-page abstract and the poster) and must include names, email addresses and contact information of the contributors. Contributions should be submitted via the conference web site.

#### **Best Poster Award**

To recognize the effort of participants in preparing and presenting their posters in a clear and elegant way, there will be a **Best Poster Award** voted on by the GD 2015 attendees.

#### **Important Dates**

Poster submission deadline Notification of poster acceptance Final versions due Symposium on Graph Drawing and Network Visualization August 18 (23:59 PDT) August 28 September 3 September 24-26

### **Invited Speakers**

**Herbert Edelsbrunner**, Institute of Science and Technology Austria **Kwan-Liu Ma**, University of California at Davis

### **Program Committee**

Carla Binucci, University of Perugia
Prosenjit K. Bose, Carleton University
Giuseppe Di Battista, Roma Tre University
Emilio Di Giacomo (co-chair), University of Perugia
Vida Dujmović, University of Ottawa
Tim Dwyer, Monash University
Fabrizio Frati, Roma Tre University
Michael Goodrich, University of California, Irvine,
Natalie Henry Riche, Microsoft Research
Vifan Hu, Yahoo Labs
Michael Kaufmann, University of Tübingen
Andreas Kerren, Linnaeus University

Tamara Munzner, University of British Columbia
Martin Nöllenburg, Karlsruhe Institute of Technology
Stephen North, Infovisible LLC
Yoshio Okamoto, University of Electro-Communications
Ignaz Rutter, Karlsruhe Institute of Technology
Maria Saumell, University of West Bohemia
Marcus Schaefer, DePaul University
Heidrun Schumann, University of Rostock
Géza Tóth, Alfréd Rényi Institute of Mathematics
Jarke van Wijk, Eindhoven University of Technology
Alexander Wolff, University of Würzburg

Anna Lubiw (co-chair), University of Waterloo

# **Organizing Committee**

**Bernardo Ábrego**, California State University at Northridge **Silvia Fernández**, California State University at Northridge **Csaba D. Tóth** (chair), California State University at Northridge

## **Contest Committee**

Philipp Kindermann, University of Würzburg Maarten Löffler (chair), Utrecht University

Lev Nachmanson, Microsoft Research Ignaz Rutter, Karlsruhe Institute of Technology
