

### **Interdisciplinary Specialization Guidelines**

1. The Interdisciplinary Specialization must reflect a carefully structured interdisciplinary program, which includes at least two but normally three disciplines. It may not be used as an alternative to the completion of the degree requirements for a program in which the student is in academic difficulty.
2. The Interdisciplinary Specialization should focus on a particular theme in the Liberal Arts. For example: Los Angeles Studies, Arts and the Media, Comparative Cultural Studies, or General Sciences.
3. Students should propose an Interdisciplinary Specialization that will enhance their future educational and/or career goals.
4. It must consist of at least 21.0 semester units of which 15.0 units must be at the upper division (300-499) level.
5. The Interdisciplinary Specialization and the General Education/Title V requirements may not be double counted.
6. Six units in the Interdisciplinary Specialization may be double counted with lower and upper division major requirements with approval of the Liberal Studies Program.
