There is a little known benefit that many families are completely unaware of which helps supplement the cost of long term care when a veteran or widow is in a nursing home, assisted living, board & care facility or is paying a caregiver to help them with activities of daily living. This benefit has been a godsend to many families as it is one of the few middle class benefits left which can help offset the high cost of long term care. Through our advocacy efforts we have been able to educate and inform families through our free weekly workshops. Our mission is to get the word out to as many families as possible.
