TADW is offering a brand new Audition Technique and College Audition Prep elective this summer. The class will focus on selecting 2 contrasting age appropriate monologues and two contrasting musical theatre songs carefully chosen to showcase your personal strengths as a singing actor. Also included will be finding appropriate 16 and 32 bar cuts for your audition songs.

The workshop is designed for participants who are about to enter 11th or 12th grade and who plan to be auditioning for musical theatre programs in the next 2 years. The class will focus on musical theatre performance training in singing, speech, musical and dramatic interpretation and presentation as well as audition technique.

A mock audition will be held at the end of the third and final week of classes. The class will be taught by Broadway veterans Raymond Saar and Diane Ketchie.
