The Weekly Bulletin of Biology

Biology Colloquium (Friday 2 PM in CR 5125)

Dr. Adler Dillmann, UC Riverside

“Host-seeking Behavior and the Parasitism of Insects by Nematodes”

- **Support Our Students**—CSUN’s 20th annual *Student Research and Creative Works Symposium* is this Friday in the USU. Once again, Biology students dominate the venue with dozens of oral and poster presentations. For the full schedule of presentations and more information, visit:
<http://www.csun.edu/research-graduate-studies/graduate-student-events>.
- **Publications**—Drs. David Bermudes and Sean Murray have a new paper out in *Methods in Molecular Biology* titled, “Isolation and analysis of suppressor mutations in tumor-targeted *msbB* *Salmonella*.”
- **Members of Dr. Pete Edmunds’s Lab Moving On**—Ananda Ellis (MS 2015) now works as Biological Scientist II with the Florida Fish and Wildlife Conservation Commission • Nicholas Evensen (MS 2015) started a PhD program at the University of Queensland and was awarded a three-year fellowship • Former Postdoc Dr. Lorenzo Bramanti began a CNRS research position at Observatoire Océanologique de Banyuls sur mer in France • Postdoc Dr. Steeve Comeau (co-mentored with Dr. Bob Carpenter) started a research position at the University of Western Australia in Perth.
- **Edmunds Lab Welcomes New Postdocs**—Two new postdocs recently joined Dr. Edmunds’s lab. Dr. Georgios Tsounis will be working on the ecology of soft corals in the Virgin Islands, and Dr. Emily Shaw (co-mentored by Dr. Bob Carpenter) will be studying the effects of ocean acidification on coral reef organisms in Moorea.
