Harbor Health Systems- Director, MPN Compliance- Irvine, CA

Harbor Health Systems, a One Call Care Management company based in Irvine, Calif., leads a revolution in medical networks that allows customers to build and manage a medical system based on quality performance of providers rather than the “lowest bidder medicine” that is typical of traditional PPOs. Harbor Health builds and manages outcomes-based Medical Provider Networks (MPN), and supplies the tools, software and services to help their customers build, implement and optimize their MPN programs.

As a result of continued growth in our company, we have a position open in our Irvine office, for a Director of MPN Compliance. This position is responsible for directing Harbor’s MPN regulatory compliance audit program activities to ensure compliance with all applicable California MPN regulations and requirements. Extensive working knowledge of the California MPN regulations and a positive working relationship with the DWC is required.

In addition, this role will also support Harbor departments for MPN program regulatory activities, by being a subject matter expertise and will assist in the development and maintenance of all Harbor MPN client programs.
