JOHN DEASY, PHD.
General Superintendent

February 23, 2012

The Los Angeles Unified School District (LAUSD) takes great pride in the rigorous A-G approval process that non-diploma giving institutions must undergo in order to qualify their courses for high school graduation credit. The Summer Academic Enrichment Program (SAEP), run through the Department of Secondary Education at California State University, Northridge, works with LAUSD to gain approval for all newly added Academic and Elective courses. We are pleased to announce District-wide Approval for the following five (*) and ten unit SAEP courses. (Included in this list are the courses that are still pending approval, which is anticipated soon.)
