Personnel Procedures

I. Department Level

A. Responsibilities

(1) Procedures for evaluating teaching effectiveness

(a) Class visits, not excluding online, distance learning, service-learning, and laboratory classes, shall be made at least once each academic year on all probationary faculty and faculty under consideration for promotion. Class visits shall be conducted early enough in the academic year for use during the annual personnel cycle.

(i) Class visits shall be made by the Department Chair and at least one representative of the Department Personnel Committee or their designees. An untenured Department Chair shall appoint a designee to make class visits. Designees shall be senior, tenured faculty normally from within the Department.

(ii) Procedures for making class visits shall be determined by the Department. Scheduling of a class visit shall be made by mutual agreement between the faculty member and the observer.

(iii) A written report of the class visit shall be placed in the candidate’s campus mailbox and otherwise made available upon request within 14 calendar days after the peer class visit. The candidate may request a meeting to discuss the report, to be held within ten (10) calendar days after the written report is placed in the candidate’s campus mailbox. The candidate may also submit a rebuttal statement or response in writing within the ten (10) calendar days. At the conclusion of the ten (10) calendar days, the report, and any response or rebuttal statement, will be placed in the Personnel Action File and be sent to the Chair of the Department Personnel Committee and to the Department Chair. A copy of the report shall be retained in the candidate’s Personnel Action File for a period of five years.

(b) Department Personnel Committees shall establish procedures
for collecting, processing, and interpreting written student
evaluations of teaching effectiveness.

(i) Evaluations shall be anonymous and identified only by
course and/or section. The format of student
evaluation shall be quantitative (e.g., "Scantron" form,
etc.) or a combination of quantitative and qualitative
(e.g., space provided on the quantitative form for
student comments). Nothing in this section will
prejudice the rights of Departments to determine the
exact nature of the student evaluation forms.

(ii) Written student questionnaire evaluations shall be
required for all faculty members who teach. A
minimum of two (2) classes annually for each faculty
member shall have such written student evaluations.
Student evaluations shall be conducted in classes
representative of the faculty member's teaching
assignment. Unless consultation with an academic unit
has resulted in an agreement by the administration and
faculty to evaluate all classes, the classes evaluated
shall be jointly determined in consultation between the
faculty member being evaluated and the faculty
member's Department Chair. In the event of
disagreement, each party shall select 50% of the total
courses to be evaluated. Student evaluations of at least
two classes of probationary faculty members in their
first year of service at this University shall be
administered in both Fall and Spring semesters.

(iii) After semester grades are assigned, the Department
Chair shall provide each faculty member with the
results of the faculty member's evaluation(s) and shall
place a summarized copy of the results (quantitative
results and qualitative student comments) in the
Personnel Action File where it shall be retained for a
minimum period of five years.
(2) Student Consultation Procedures.

Each Department Personnel Committee shall provide students the opportunity to consult with the Committee regarding the teaching performance of probationary or tenured faculty members under consideration for retention, tenure, and/or promotion.

(3) Scholarly and Creative Contributions
a. The department recognizes as significant contributions to the field of study peer-reviewed scholarly books and peer-reviewed articles that are published by recognized presses and journals (including peer-reviewed e-journals) devoted to 1) the candidate's academic discipline or closely-related field; and/or 2) pedagogical research and/or teacher education in the candidate's academic discipline or closely-related field.

b. Scholarly and creative contributions as defined by the Department include

(i) An externally peer-reviewed proposal that includes a scholarly review of the literature and extends an existing or develops a scholarly model or theory, and is approved for funding to conduct research, training, or development projects in the candidate's academic discipline or closely-related field.
