ATTEMPT RESIDENTIAL BURGLARY

DATE TIME: Sunday March 8th at 9:45 pm

LOCATION: UPA 8

REPORTED OFFENSE: University police responded to an unknown male attempting to open the screen to the sliding glass door of the residence. When seen by the residents he fled in an unknown direction. He is described as a male 5’2 to 5’4 wearing a black jacket and black beanie. The residents did have their sliding door secured by the handle lock, the pin at the top of the door and a pole in the bottom track of the door.

University police urges the public to protect their property by following the tips below.

CRIME PREVENTION TIPS

- Always check that all doors and windows are closed and locked before leaving.
- While in your apartment, only keep your windows and balcony sliding doors open enough so that someone cannot squeeze through. Place a dowel rod (cut to length) in the bottom window and door track to prevent someone from opening the door/window any further. CSUN housing doors all have a screw type pin that can be used to further secure them.
- Never use your balcony door as a means of entering/exiting your apartment.
- If your doors/windows do not property lock-contact housing maintenance ASAP. Follow up if repairs have not been made in a timely matter.
- Do not prop open doors.
- Keep valuable property out of sight, preferably locked in a secure location when not in use.
- Register your electronic items with STOP plates at the Department of Police Services.
- Immediately report ANY suspicious person/activity to the CSUN PD (818) 677-2111. Suspicious activity includes: persons walking/loitering around buildings for long periods of time; looking into windows; seeing open/broken windows or balcony doors.
