When Students Cannot Cope...

As you know, many students experience a significant degree of distress while pursuing their studies. The staff at University Counseling Services has found that receiving psychological counseling assistance sooner rather than later can help a student focus more fully on course material and learning. Our goal is to acquaint your students with our service early in the semester, before stress starts to interfere with the learning process.

We would appreciate the opportunity to make a brief, 10 minute presentation to your class about our services.

University Counseling Services is located in Bayramian Hall, fifth floor, room 520.

If you would like to schedule one of our presentations, please call
