RE: 2009/2010 Salary Adjustments

I am writing to let you know about a recent decision related to cost of living and merit salary adjustments for the coming year. After careful consideration, we want to advise you that due to budgetary constraints related to California's ongoing economic downturn, The University Corporation will not be making cost of living or merit salary adjustments in fiscal year 2009/2010. This decision is consistent with actions taken by California State University Northridge administration in addressing the significant cuts to the University budget.

Please contact Georg Jahn at (818) 677-2698 or at gjahn@csun.edu if you have any questions about cost of living and merit adjustments in general or questions about your particular situation. We very much appreciate your understanding during this financially stressful period.
