**Knowledge of Human Cultures and the Physical and Natural World** – CSUN graduates understand the history and scope of human knowledge in the natural and social sciences and appreciate the diversity of aesthetic and cultural achievements throughout the world.

**Intellectual and Practical Skills** – CSUN graduates can actively inquire and problem-solve using a variety of information sources, engage in critical analysis and creative thinking, have quantitative literacy, and appreciate the role of these as life-long learners.

**Personal and Social Responsibility** – CSUN graduates are actively engaged in diverse local and global communities, have multi-cultural knowledge, and use ethical principles in reasoning and action when solving real-world challenges.

**Communication Skills** – CSUN graduates can communicate effectively through written, signed or spoken languages, through visual and audio media using text, video, graphics, and quantitative data, both individually and as a member of a team.
