Common Core has increased expectations for writing instruction, and ISAW can help teachers meet their students’ needs. The ISAW program addresses all 10 of the CCCSS anchor standards for writing and helps teachers know how to improve the writing their students produce.

Participants will explore ways in which they can support students through an improvement model of writing instruction. They will:

- Learn how to write effective prompts;
- Examine the moves students must learn to make in analytic/academic writing;
- Use the ISAW continuum/rubric to choose instructional strategies to help students become better writers; and
- Engage in Connected Learning principles such as interest-powered, peer-supported learning.

Come ready to learn and collaborate with like-minded colleagues and Teacher Leaders from the Cal State Northridge Writing Project.
