Others: _____   _____

                     _____   _____

Instructions:

Using the data provided, get frequency tables and descriptive statistics for PAEDUC & MAEDUC

Questions:

1. Which is more dispersed? (Use appropriate statistical terms *and statistics!*)

2. In what range would an estimated 68% of mothers and fathers fall? (Assume the Empirical Rule applies.)

3. Are there outliers / scraggly tails? (Use the *first* definition from lecture.)

4. What are the two sampling errors? (Assume the pop. mean for both is 10 years.)
