

Chemistry 334

How to Succeed in Chemistry 334

1. Have a positive attitude.
2. Be organized.
3. Develop good study habits
 - a. Devote a regular amount of time to Chemistry 334 each day.
 - b. Find a quiet place to study where you can concentrate.
 - c. Read the chapter assignments in Wade, *Organic Chemistry*, before coming to class.
 - d. Attend all the lectures.
 - e. Take good lecture notes. Review the lecture notes frequently.
 - f. Rewrite lecture notes or make flash cards of topics covered in class.
 - g. Use the lecture notes as a guide for reading Wade, *Organic Chemistry*, a second time.
 - h. Find a study partner or form a study group. Work on problems independently and then together.
 - i. Do all the assigned homework problems. Use the textbook or solutions manual to check your answers after you have worked the problems.
 - j. Do problems from old examinations for additional practice.
 - k. See the Chemistry and Biochemistry Department Office in Live Oak 1300 if you want a private tutor.
 - l. Make a list of questions about topics and problems that you don't understand. Ask the instructor, a tutor, or a friend for explanations. Do so promptly.
 - m. Keep up to date!
4. Persevere and be determined to succeed. You will!
