

CALIFORNIA PLACE NAMES

The list below includes many important places names in California. Though not exhaustive, these are names to which reference will be made during the course.

Using the AAA map of California (or any other map source), identify and label the place names on the blank California map provided. Use the county boundaries to help place locations. A blank map will be attached to Examination 1 (September 20) on which you will identify in multiple choice format, 15 of these places.
