Office Hours: M 1:15-2:15, W F 9:30-10:30 in Santa Susanna Hall 415. 

Text: Nonparametrics: Statistical Methods Based on Ranks (Paperback), by Erich L. Lehmann (Springer). 

Homework: Exercise sets from the text will be assigned and collected regularly. A selection of problems from each set will be graded. Homework papers must be stapled. 

Class Activities: Class meetings will involve a combination of lectures and “lab” activities (hands-on practice with the techniques presented in the lecture), along with discussion of homework when necessary. 

Computer Component: The SAS and Minitab statistical software packages will be used for a portion of the homework and lab problems. 

Grade Components: 

Homework and Labs: approximately 35% 
Exams 1 and 2: approximately 17.5% each 
Final Exam: approximately 30% 

Exam Schedule: 

Exam #1-- about week 6 
Exam #2-- about week 12 
Final Exam—Wednesday, December 17th, 5:30-7:30pm. 

NO MAKE-UP EXAMS WILL BE GIVEN
