

BIOLOGY COLLOQUIUM

Sponsored by: Department of Biology, Minority Biomedical Research Support,
Minority Access to Research Careers Program

FALL 2009

- 28 August Biology 490 & 692 Organizational Meeting
- 4 September Christina Campbell, Ph.D.
Department of Anthropology
California State University, Northridge
Sexual Behavior in Black-handed Spider Monkeys: Evidence that Anthropoid Primates do not Experience Estrus
- 11 September William Friedman, Ph.D.
Dept. of Ecology & Evolutionary Biology
University of Colorado
Evolution Before Darwin
Talk starts at 1:30
- 11 September Oveta Fuller, Ph.D.
Dept. of Microbiology and Immunology
University of Michigan
Exploring Human Viral Pathogens: Innovation, Purpose, Courage, and Truth
Talk starts at 3:00
- 25 September Hugh Ellis, Ph.D.
Department of Biology
University of San Diego
Physiological Ecology of Birds at Mono Lake
- 2 October Ruth Finkelstein, Ph.D.
Dept. Molecular & Developmental Biology
University of California, Santa Barbara
Genetics and Physiology of Plant Embryos
- 9 October Eric Graham, Ph.D.
Department of Organismal Biology
University of California, Los Angeles
Using Digital Cameras as Environmental Sensors
- 16 October Tom Demere, Ph.D.
Department of Paleontology
San Diego Natural History Museum
The Origin of Baleen and the Evolution of Bulk Feeding in Mysticete Whales
- 23 October Anthony Friscia, Ph.D.
Department of Organismal Biology
University of California, Los Angeles
Ecology of Past and Present Small Carnivores
- 30 October Annette Angus, Ph.D.
Dept. Molecular & Developmental Biology
University of California, Los Angeles
The Secret Life of *Pseudomonas aeruginosa*: Opportunistic Intracellular Pathogenesis
- 6 November John Orrock, Ph.D.
Department of Biology
Washington University in St. Louis
When Native Consumers Benefit Exotic Plants: Apparent Competition in the Context of California Grasslands
- 13 November Claudia Toledo
Department of Preventive Medicine
University of Southern California
Determining Atherosclerosis Risk in Overweight Latino Adolescents with a Family History of Type 2 Diabetes
- 20 November Julia Martin
Department of Microbiology
University of Illinois
Why Does *Escherichia coli* have Two Aerobic Ribonucleotide Reductases: NrdAB and NrdEF?

Fridays at 2 PM

Place: Eucalyptus Hall 2132

NOTE: Friday Sep 11 has two talks, at 1:30 and 3PM, and therefore no talk on Sep 18

Organizers: Drs. Fritz Hertel and Maria Elena Zavala
