**Los Angeles Zoo**

There are more than 80 animal exhibits in the zoo. Throughout your visit today, I want you to observe several things:
- the original habitat of the animals
- the conservation efforts of the zoo
- the current habitats of the animals

Pick a minimum of 12 animals (at least one from each section) and complete the following table.

<table>
<thead>
<tr>
<th>Animal</th>
<th>Scientific name</th>
<th>Original Habitat</th>
<th>Description of current habitat</th>
<th>Food</th>
<th>Conservation effort of zoo and organizations</th>
</tr>
</thead>
</table>

Pick an additional of three animals and sketch their surroundings. At the bottom of each picture, explain the purpose of the different materials inside their habitat (plants, logs, water, etc.).

This assignment will be due at the end of the trip.
