

Are you interested in learning how to implement a behavioral assessment?

.....

Dr. Kazemi and her research lab at CSUN are conducting a study to teach a commonly used aspect of behavioral technology to students.

You are eligible to participate in this study if you are at least 18 years of age and have NO FORMAL TRAINING with conducting preference assessments.

This IRB approved research study will take approximately two hours to complete. If you are interested in participating in this study, please contact **Melissa Mendoza** at csun.klab@gmail.com.

- ** All participants' information will be de-identified and individual results will remain anonymous.
- ** You have the right to withdraw or decline participation at any time.
- ** Upon completion of this study, participants may be able to accurately implement an assessment procedure and will be able to keep materials used during the study.
