

## Instructions for using the TKAS (Teacher Knowledge Assessment System)

You are being asked to take a survey of your mathematical knowledge for teaching (MKT) in order for us to evaluate our teaching. Your score will not affect your grade in the course. We are interested in how your score changes from the pre-test to the post-test at the end of the semester.

### DATES:

Pre test: Now to February 8, 2009 (Sunday)

Post test: April 24, 2009 ( Friday) to May 10, 2009 ( Sunday before finals start).

1. Log on to the teacher login URL: <https://projects.isr.umich.edu/tkas/teacher/>
2. Enter the program code for your class as listed below.

INSTRUCTOR'S NAME	PROGRAM CODE
-------------------	--------------

<a href="#">CSUN Spr 09 310 Evans</a>	9501229107
---------------------------------------	------------

3. The first time you log on click “create log in” in order to create your own user account and provide some information. **WRITE DOWN** the NAME AND PASSWORD that you use so that you will be able to log back on for the post test near the end of the semester. If you forget your login data use something similar so that we can match the pre and post test scores.
4. Please do not ask anyone for help or work with a friend or look up answers. Your score will not affect your grade in the course, but will help us to assess the success of our course. You may use paper and pencil to work on the problems. You may skip any question you do not want to answer. When you enter “next” to move on to another question, you will receive one reminder for each unanswered question. If you enter “next” again, you are moved forward to a new question. You will not be able to go back to previous questions.
5. If a computer crashes or you stop in the middle of an assessment, when you log back on you will be restarted where you left off. You can stop in mid session by selecting the X in the upper left corner.
