

Graphic Design Workshop

Many of us are asked to design flyers or posters for school events. This session will be basic Graphic Design 101. Learn about the proper use of type and what is the best typefaces to use and why. Learn the difference between designing something in MS word and designing in Adobe Illustrator or Photoshop. We will go over concepts like, kerning and leading as well as Photoshop tips when working with low quality photos. Also, we will learn about free font websites and how to make a photo into a graphic.
