Secretary	Take typed notes of officer meetings	Fast typist, good written skills	1

Benefits of the club:

- o Stand out in academia, future career, develop leadership/management skills
- o Communicate, network and build relationships with other math students
- o Beef up your résumé, CV, score points for future application to PhD program or for employment opportunity
- o Keep yourself busy with fun/relevant events
- o Build network of professors, speakers, companies, and peers
- o Stay involved and have fun while at CSUN and after you graduate
- o If you are not ready to become an officer, *become a member*. This is a great, cost-less opportunity! And, many more!

Tentative Ideas for Events and Activities:

- o Games, contests, fun events, sport activities, parties, movie goings, social networking events
- o Speaker series (from academia and industry), visits of companies and nearby universities
- o Awards for higher learning and commitment to the field of mathematics
- o Promoting higher learning and life-long achievements
- o Career fairs and assistance, educational guidance and advisorship
- o Networking with Math clubs at UCLA, USC, and other nearby universities
- o Camping, hiking trips, running, biking, surfing, and other outings
- o Fund raising events – to reward those who excel at math

For more info, please **join CSUN Math Club** on **Facebook.com** and post your question under specific Discussion Board or on the Wall. It'll be answered shortly.

Best regards and see you soon!
