

Last Name:	First Name:
------------	-------------

	<i>Low</i>	<i>High</i>
Background		
Introduction is comprehensive and methodical	← →	← →
Reasons for choosing this topic are well described	← →	← →
History of developments	← →	← →
Technical Content, Analysis and Discussion		
Current developments	← →	← →
What benefits has this brought to software/systems engineering?	← →	← →
Evidence of critical study of the referenced material (Paper cites references, arguments, opposing views)	← →	← →
Expected Future Developments		
Expected future developments (substantiated expectations, not wild speculations)	← →	← →
Conclusions & Surprise Section		
Summary of observations, results, etc	← →	← →
Surprise section	← →	← →
Style and Quality		
ACM/IEEE publication standard	← →	← →
Appropriate use of graphics	← →	← →
References and pagination	← →	← →
Planning		
Consistent with proposal	← →	← →

Overall Grade: _____
