

Because the overall average was a B-, I did not curve the grades.

Note on the briefs: Most common error was using the lower court decision rather than the highest court. Other predominate errors include: not citing case law in Rationale; forgetting to include lower case information in Facts; leaving out total sections (Impact, Analysis, etc.); and, over use of direct quotes (in one case the entire Rationale was one direct and cited quote from the case summary). Plagiarism received a zero score for the section in which the plagiarism occurred (as opposed to referring you to the department chair for reprimand).

I am going out of town and will have limited use of email. If you have questions, please call me on the cell, however, I will not have the paperwork with me. I will be in Alaska where cell phone service is sketchy. I will be back in town Saturday, the 28th.
