## CSUN BS, Radiologic Technology Program Clinical Competency Assessment for Angio

(Use one form per competency)

The student must pass all sections of this form. In every section, each student must accumulate the minimum points necessary based on their Junior or Senior/Post Grad status. If a licensed RT intervenes during any part of the evaluation, the assessment is discontinued and the student must be reevaluated on a different exam. The following total points are needed to pass this competency: Juniors **52** and Seniors/Post Grads **59**.

Date of Exam:   Patient's Accession/Case #:	man	ie:Procedure:					
Patient Care & Communication   Verifies correct patient, procedure, and clinical diagnosis/indication.   0   1   2   2   2   2   2   2   2   2   2	Date	e of Exam: Patient's Accession/Case #:					
1. Verifies correct patient, procedure, and clinical diagnosis/indication. 2. Communication skills — Provides clear and complete explanation of procedure to age appropriate patient. 3. Obtains patient assessment, preparation, history, and consent. (Verifies NPO, labs done, contrast 0 1 2 allergies) 4. Insures patient privacy and dignity. 5. Knows emergency protocol for Code situations. 6. Insures patient safety and comfort throughout procedure. 6. Insures patient safety and comfort throughout procedure. 6. Insures patient safety and comfort throughout procedure. 7. Practices safe patient care transfer methods including falling precautions. 8. (a) 1 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2	Scal	le: 0=Unacceptable; 1=Needs Improvement; 2=Competent/Acceptable; 3=Above Average; 4=Exceeds Exped	ctatio	ons (	at R	T lev	el)
2. Communication skills — Provides clear and complete explanation of procedure to age appropriate patient, 0 1 2 surmane use, etc. 3. Obtains patient assessment, preparation, history, and consent. (Verifies NPO, labs done, contrast 0 1 2 allergies) 4. Insures patient privacy and dignity. 5. Knows emergency protocol for Code situations. 6. Insures patient safety and comfort throughout procedure. 7. Practices safe patient care transfer methods including falling precautions. 8. Knows emergency protocol for contrast reactions. 9. Assists the patient, physician, nurse, and anesthesiologist throughout procedure. 9. Provides post examination instructions. 9. Total for Section I:    Maximum points = 40 Minimum passing points: Juniors=16 and Seniors/Post Grads=18   Technical Requirements & Positioning   1. Correctly enters patient information. 9. Selects appropriate exam protocol or adjusts as necessary. 9. Adjusts exposure factors and selects proper image receptor. 9. Adjusts exposure factors and selects proper image receptor. 9. Correctly enters patient information. 10. 1 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2 2	I.	Patient Care & Communication					
3. Obtains patient assessment, preparation, history, and consent. (Verifies NPO, labs done, contrast 0 1 2 allergies) 4. Insures patient arrivacy and dignity. 5. Knows emergency protocol for Code situations. 6. Insures patient aftery and comfort throughout procedure. 7. Practices safe patient care transfer methods including falling precautions. 8. Knows emergency protocol for contrast reactions. 9. Assists the patient, physician, nurse, and anesthesiologist throughout procedure. 9. Assists the patient, physician, nurse, and anesthesiologist throughout procedure. 9. Provides post examination instructions. 9. Total for Section I:    Maximum points = 40 Minimum passing points: Juniors=16 and Seniors/Post Grads=18    II.   Technical Requirements & Positioning   1. Correctly enters patient information. 9. Selects appropriate exam protocol or adjusts as necessary. 9. Adjusts exposure factors and selects proper image receptor. 9. Adjusts exposure factors and selects proper image receptor. 9. Vesitions patient efficiently and correctly for the examination. 9. Less proper immobilization devices. 9. Knows how to maneuver C-arm into different angles. 9. Knows storage location of necessary supplies. (Catheters, guide wires, etc.) 9. Properly archives images to PACs or prints images. 9. Properly archives images to PACs or prints images. 9. Properly archives images to PACs or prints images. 9. Properly selects and prepares contrast media. 9. Properly selects and prepares contrast media. 9. Properly selects and prepares sterile procedure tray. 10. Properly depends terile instruments or supplies onto tray during procedure. 11. Properly deposes of used supplies and sharps. 12. Properly deposes terile instruments or supplies onto tray during procedure. 13. Properly opens sterile instruments or supplies onto tray during procedure. 14. Preps area of interest using proper sterile technique and maintains the sterility of the field throughout the procedure. 15. Properly deposes terile instruments or supplies onto tray during procedur		Communication skills - Provides clear and complete explanation of procedure to age appropriate patient,		1 1	2	3 3	4 4
