

**RT Clinical Objectives: CT**

In an attempt to demonstrate the scope of learning that has occurred in the clinical area, each student is responsible for the satisfactory completion of the following within the first two weeks of the rotation:

Critical Elements	No	Yes
Identify the CT Accessories		
Table movements		
Patient positioning localizer		
Table weight capacity		
Gantry angulations		
Patient immobilizers		
Patient preparation		
Knows patient identifiers		
Knows patient attire		
Knows patient pre-meds or site preparation		
Contrast assessment		
Scanning		
Knows purpose of study		
Knows how to set up room		
Knows how to set up the injector if applicable		
Knows the projections and recording media		
Knows sequence/labeling of finished images		
Knows location of shielding & how to shield appropriately		
Knows what to do if contrast reaction occurs		
Knows location of crash cart		
Knows location of fire extinguishers		
Knows hospital codes		
Parameters for diagnostic acceptability:		
Knows kVp range appropriate		
Knows window width and level appropriate for each study		
Knows how to accurately center patient and part		
Knows pre and post instructions		
Positioning:		
Correct centering		
"Tricks of the trade"		
Structures demonstrated		
Spatial relationships
