

RT Clinical Objectives: GU

In an attempt to demonstrate the scope of learning that has occurred in the clinical area, each student is responsible for the satisfactory completion of the following within the first two weeks of the rotation:

Identify the control panel: kVp mAs Focal spot Exposure switch On/off switch Identify the accessories: Table bucky Detent Collimating devices (PBL) Compression devices Preparation Knows hospital set for the specific procedure Knows post instructions for the specific procedure Knows post instructions for the specific procedure	Critical Elements	No	Yes
mAs Focal spot Exposure switch On/off switch Identify the accessories: Table bucky Detent Collimating devices (PBL) Compression devices Preparation Knows hospital set for the specific procedure Knows post instructions for the specific procedure Knows post instructions for the specific procedure	Identify the control panel:		
Focal spot Exposure switch On/off switch Identify the accessories: Table bucky Detent Collimating devices (PBL) Compression devices Preparation Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure	kVp		
Exposure switch On/off switch Identify the accessories: Table bucky Detent Collimating devices (PBL) Compression devices Preparation Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure	mAs		
On/off switch Identify the accessories: Table bucky Detent Collimating devices (PBL) Compression devices Preparation Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure	Focal spot		
Identify the accessories: Table bucky Detent Collimating devices (PBL) Compression devices Preparation Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure	Exposure switch		
Table bucky Detent Collimating devices (PBL) Compression devices Preparation Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure	On/off switch		
Detent Collimating devices (PBL) Compression devices Preparation Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure	Identify the accessories:		
Collimating devices (PBL) Compression devices Preparation Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure	Table bucky		
Compression devices Preparation Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure			
Preparation Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure	Collimating devices (PBL)		
Knows hospital set for the specific procedure Knows patient prep for the specific procedure Knows post instructions for the specific procedure	Compression devices		
Knows patient prep for the specific procedure Knows post instructions for the specific procedure	Preparation		
Knows post instructions for the specific procedure			
	Knows patient prep for the specific procedure		
	Knows what type and set up for contrast		
Knows what to do if a reaction should occur	Knows what to do if a reaction should occur		
Knows location of shielding			
Knows location of crash cart			
Knows location of fire extinguishers	Knows location of fire extinguishers		
Knows hospital codes			
Knows patient identifiers	Knows patient identifiers		
Parameters for diagnostic acceptability:	Parameters for diagnostic acceptability:		
kVp range			
mAs range			
Central ray location			
Hospital protocol for procedure	Hospital protocol for procedure		
Positioning:	Positioning:		
Correct centering	Correct centering		
Correct views			
Correct use of markers	Correct use of markers		
S-value range			
"Tricks of the trade"	"Tricks of the trade"		
Technologist's Name (print) Date	Technologist's Name (print) I	Date	
	T		
Technologist's Signature	l echnologist's Signature		
Student's Name (print)	Student's IName (print)		
Student's Signature	Student's Signature
