The Active Outdoor Recreation Economy

A $730 Billion Annual Contribution to the U.S. Economy
Acknowledgments

The economic analysis was conducted by Southwick Associates, Inc. The consumer survey was developed and executed by Harris Interactive®.

Outdoor Industry Foundation® (OIF) would like to thank the following organizations who lent their expertise and support in developing this project:

Outdoor Industry Association (OIA)
Adventure Travel Trade Association (ATTA)
America Outdoors
American Sportfishing Association (ASA)
Bikes Belong
International Mountain Bicycling Association (IMBA)
National Ski Areas Association (NSAA)
Recreation Vehicle Industry Association (RVIA)
Snowsports Industries America (SIA)
Sporting Goods Manufacturers Association (SGMA)
Travel Industry of America (TIA)

OIF is extremely grateful to the following consultants who offered valuable technical guidance:

Dr. John Bergstrom, Ph.D. (University of Georgia)
Dr. John Loomis, Ph.D. (Colorado State University)
Dr. Douglas L. MacLachlan, Ph.D. (University of Washington)
Dr. Roger Moore, Ph.D. (North Carolina State)

The following corporations provided support to our research team with their very capable research staff:

Coleman
Jansport
Johnson Outdoors
Kampgrounds of America, Inc. (KOA)
Recreational Equipment, Inc. (REI)
Timberland

Portions of the study are based on the following published reports:

American Sportfishing Association – “Sportfishing in America: Values of Our Traditional Pastime,” 2002
International Association of Fish and Wildlife Agencies – “The Economic Importance of Hunting in America,” 2002

This report was made possible through the financial support of REI, OIA, and Outdoor Retailer.
What Is the Active Outdoor Recreation Economy?

IT’S A $730 BILLION ANNUAL CONTRIBUTION TO THE U.S. ECONOMY

More than three out of every four Americans participate in active outdoor recreation each year. Americans spend money, create jobs, and support local communities when they get outdoors. Simple, healthy outdoor activities such as hiking, biking, camping, or wildlife viewing generate enormous economic power and fuel a far-reaching ripple effect that touches many of the nation’s major economic sectors.

THE RECREATION ECONOMY:

• Contributes $730 billion annually to the U.S. economy
• Supports nearly 6.5 million jobs across the U.S.
• Generates $88 billion in annual state and national tax revenue
• Provides sustainable growth in rural communities
• Generates $289 billion annually in retail sales and services across the U.S.
• Touches over 8 percent of America’s personal consumption expenditures—more than 1 in every 12 dollars circulating in the economy

Many people don’t realize that having fun and staying healthy in the outdoors is essential to the continued growth of our economy. In order to thrive, however, this burgeoning, often overlooked industry needs to be recognized, stimulated, and supported. In this report, we explain how we determined the impact of the Active Outdoor Recreation Economy, how it interacts with the national economy, and how it affects all Americans. A technical report, published online at www.outdoorindustryfoundation.org, provides more detailed numbers and information on our methodology and findings.

WHAT DOES ACTIVE OUTDOOR RECREATION INCLUDE?

**BICYCLING**
- Paved-road bicycling
- Off-road bicycling

**CAMPING**
- RV camping at a campsite
- Tent camping at a campsite
- Rustic lodging

**FISHING**
- Recreational fly
- Recreational non-fly

**HUNTING**
- Shotgun
- Rifle
- Bow

**PADDLING**
- Kayaking (recreational, sea, whitewater)
- Rafting
- Canoeing

**SNOW SPORTS**
- Downhill skiing, including telemark
- Snowboarding
- Cross-country or Nordic skiing
- Snowshoeing

**TRAIL**
- Trail running on an unpaved trail
- Day hiking on an unpaved trail
- Backpacking
- Rock climbing (natural rock or ice)

**WILDLIFE VIEWING**
- Bird watching
- Other wildlife watching

*Note:* The Active Outdoor Recreation Economy Report does not take into account non-market benefits, the increased value of land associated with recreation opportunities or economic benefits from environmental consequences of reserving land for recreation opportunities.
Meet the $730 Billion Active Outdoor Recreation Economy

Active Outdoor Recreation Participants
- BICYCLING 60 MILLION
- CAMPING 45 MILLION
- FISHING 33 MILLION
- HUNTING 13 MILLION
- PADDLING 24 MILLION
- SNOW SPORTS 16 MILLION
- TRAIL 56 MILLION
- WILDLIFE VIEWING 66 MILLION

Active Outdoor Recreation Trips (DAY + OVERNIGHT)

Active Outdoor Recreation Gear

Retail Sales $243 Billion
- FOOD/DRINK, TRANSPORTATION, ENTERTAINMENT/ACTIVITIES, LODGING, SOUVENIRS/GIFTS/MISC.

Retail Sales $46 Billion
- APPAREL, FOOTWEAR, EQUIPMENT, ACCESSORIES, SERVICES

Note: Detailed methodology, including additional definitions of “ripple effect” and “economic contribution,” is available in the technical report on our website (www.outdoorindustryfoundation.org).

This report benefited from an academic review by leaders in resource and recreation economics and tourism management.

Because great information existed for wildlife-based recreation—fishing, hunting, and wildlife viewing—other respected studies, such as the U.S. Fish and Wildlife report, were used to gauge these contributions.
**Retail Sales**

$46 Billion

APPAREL, FOOTWEAR, EQUIPMENT, ACCESSORIES, SERVICES

**Ripple Effect** $62 Billion

SUPPLIERS, INTERMEDIARIES, AND EMPLOYEES CIRCULATE MONEY THROUGH THE ECONOMY, MULTIPLYING THE INITIAL EXPENDITURE IN OUTDOOR RECREATION TRIPS.

**Total Economic Contribution**

$108 Billion

**Ripple Effect** $379 Billion

SUPPLIERS, INTERMEDIARIES, AND EMPLOYEES CIRCULATE MONEY THROUGH THE ECONOMY, MULTIPLYING THE INITIAL EXPENDITURE IN GOODS AND SERVICES.

**Total National Economic Contribution**

$730 Billion

**Ripple Effect** $62 Billion

SUPPLIERS, INTERMEDIARIES, AND EMPLOYEES CIRCULATE MONEY THROUGH THE ECONOMY, MULTIPLYING THE INITIAL EXPENDITURE IN OUTDOOR RECREATION TRIPS.

**Total Economic Contribution**

$622 Billion

**Note:** This report used multipliers (“ripple effect”) from the Minnesota IMPLAN Group, Inc. (MIG) database. MIG maintains over 1,500 active users, including federal government (Forest Service, Bureau of Economic Analysis, etc.), state government, numerous academics and private clients.

The “ripple effect” is a common economic tool that considers the economic process of bringing final product to market to determine total economic contribution. The components of the ripple effect are:

- **Direct effect:** the initial purchase made by the consumer
- **Indirect effect:** sales in one industry affect the various other industries that provide supplies and support
- **Induced effect:** wages and salaries paid by the directly and indirectly impacted industries circulate through the economy
- **Leakages:** occur at each component of the ripple effect when a business or individual spends money outside of the study region for products or services that are either imported into the study region or consumed outside of the region.
Economic Contribution of Active Outdoor Recreation by Census Division

**NATIONAL TOTALS**
- Total Contribution: $730,979 million
- Jobs Generated: 6,435,270
- Gear Retail Sales: $46,185 million
- Trip-related Sales: $243,244 million
- Taxes (federal, state): $87,867 million

**DIVISION 1: NEW ENGLAND TOTALS**
- CT, ME, MA, NH, RI, VT
- Total Contribution: $22,941 million
- Jobs Generated: 271,196
- Gear Retail Sales: $2,211 million
- Trip-related Sales: $17,696 million
- Taxes (federal, state): $3,369 million

**DIVISION 2: MIDDLE ATLANTIC TOTALS**
- NY, NJ, PA
- Total Contribution: $38,300 million
- Jobs Generated: 357,258
- Gear Retail Sales: $5,198 million
- Trip-related Sales: $22,951 million
- Taxes (federal, state): $4,499 million

**DIVISION 3: EAST NORTH CENTRAL TOTALS**
- IN, IL, MI, OH, WI
- Total Contribution: $61,953 million
- Jobs Generated: 691,507
- Gear Retail Sales: $7,007 million
- Trip-related Sales: $34,665 million
- Taxes (federal, state): $7,151 million

**DIVISION 4: WEST NORTH CENTRAL TOTALS**
- IA, KS, MN, MO, NE, ND, SD
- Total Contribution: $23,836 million
- Jobs Generated: 272,654
- Gear Retail Sales: $3,405 million
- Trip-related Sales: $12,771 million
- Taxes (federal, state): $2,609 million
**DIVISION 5: SOUTH ATLANTIC TOTALS**
DE, DC, FL, GA, MD, NC, SC, VA, WV
- Total Contribution: $67,595 million
- Jobs Generated: 794,841
- Gear Retail Sales: $8,243 million
- Trip-related Sales: $43,143 million
- Taxes (federal, state): $8,294 million

**DIVISION 6: EAST SOUTH CENTRAL TOTALS**
AL, KY, MS, TN
- Total Contribution: $18,790 million
- Jobs Generated: 215,126
- Gear Retail Sales: $2,636 million
- Trip-related Sales: $10,875 million
- Taxes (federal, state): $2,545 million

**DIVISION 7: WEST SOUTH CENTRAL TOTALS**
AR, LA, OK, TX
- Total Contribution: $38,465 million
- Jobs Generated: 379,933
- Gear Retail Sales: $4,787 million
- Trip-related Sales: $19,077 million
- Taxes (federal, state): $3,782 million

**DIVISION 8: MOUNTAIN TOTALS**
AZ, CO, ID, NM, MT, UT, NV, WY
- Total Contribution: $61,496 million
- Jobs Generated: 617,186
- Gear Retail Sales: $4,790 million
- Trip-related Sales: $34,940 million
- Taxes (federal, state): $8,906 million

**DIVISION 9: PACIFIC TOTALS**
AK, CA, HI, OR, WA
- Total Contribution: $81,696 million
- Jobs Generated: 762,247
- Gear Retail Sales: $5,036 million
- Trip-related Sales: $46,081 million
- Taxes (federal, state): $9,369 million

**ACTIVE OUTDOOR RECREATION TOTALS BY CENSUS DIVISION AND ACTIVITY CATEGORY**
To review a comprehensive breakdown of totals by census division and activity category, please see page 19 of this report or visit www.outdoorindustryfoundation.org.
Active Outdoor Recreation Starts with Everyday Americans

Over three quarters of Americans participate in active outdoor recreation each year.
Who Drives the Recreation Economy?

The Active Outdoor Recreation Economy begins with millions of Americans who come from all walks of life and geographical regions across the country. More than three out of every four Americans engage in healthy outdoor activities, ranging from bird watching to ice climbing, hiking to bass fishing. When Americans get out and participate in these activities, they aren’t just having fun and staying fit, they’re also pumping billions of dollars into the economy.

FAST FACTS

★ More Americans camp than play basketball.¹
★ The number of Americans who participate in bicycling is double the population of Canada.
★ More Americans paddle (kayak, canoe, raft) than play soccer.²
★ The number of Americans who recreate in the snow each year is greater than the combined populations of Ireland, Costa Rica, New Zealand, and Mongolia.
★ The number of New Englanders who participate in trail-based recreation annually is greater than the combined attendance for all 81 Boston Red Sox home games.³
★ The number of annual participants in snow-based recreation is more than double the combined annual attendance for NASCAR’s two premier series.⁴

¹ Sporting Goods Manufacturing Association (SGMA) estimates 32 million Americans 6+ played basketball in 2005.
² SGMA estimates 17 million Americans 6+ played soccer in 2005.

OUTDOORINDUSTRYFOUNDATION.ORG
Active Outdoor Recreation Supports 6.5 Million Jobs

One in 20 Americans depend upon the Active Outdoor Recreation Economy to make a living.
The Active Outdoor Recreation Economy Employs America

Nearly 6.5 million Americans are working thanks to the Active Outdoor Recreation Economy. That’s one out of 20 workers in the U.S. These are not just stereotypical seasonal jobs such as cleaning campgrounds or operating ski lifts. Instead, the economy supports a wide range of careers with diverse skills. These sustainable jobs are not confined to any single economic sector and they, in turn, support larger industries—manufacturing, leisure and hospitality, transportation, and wholesale and retail trade. In short, the Active Outdoor Recreation Economy is one of America’s most important employers.

FAST FACTS
★ More Americans owe their jobs to bicycle-based recreation than there are people employed as lawyers.⑤
★ More Americans owe their jobs to snow-based recreation than there are physicians and surgeons.⑥
★ The Active Outdoor Recreation Economy employs five times more Americans than Wal-Mart, the world’s largest private employer.⑦
★ Camp-based recreation in the U.S. could employ the entire population of Utah.

Note: The jobs figures in the Report are termed “average annual employment” by the economic model. The jobs figures represent an average job for the industry impacted and do not represent full-time equivalent jobs.

⑥ ibid
⑦ Wal-Mart Annual Report
The Active Outdoor Recreation Economy Generates $88 Billion in Tax Revenues

The federal tax revenue generated by the Active Outdoor Recreation Economy ($48.5 billion) would cover the budget of the Department of Interior ($16.4 billion in 2005) for nearly 3 years.¹
$88 Billion Coming Back to America: Tax Receipts

The cash spent by Americans in pursuit of active outdoor recreation benefits all Americans, generating $88 billion in state and federal taxes (sales tax and income tax). This tax influx, in turn, supports government programs that empower and develop communities.

CASE STUDY

FRUITA, CO

Eleven years ago, businessman Troy Rarick took a big chance and opened a bike shop in the struggling town of Fruita, Colorado. Over the Edge Sports was one of the few businesses in the mostly vacant downtown. But the shop encouraged the community to build mountain bike trails and organize an annual Fruita Fat Tire Festival. In the 10 years since, Fruita has earned a reputation as a world-class mountain biking destination that pumps $1.5 million a year into the local economy, according to the Bureau of Land Management. And Fruita’s sales tax revenues have increased by 51 percent in the last 5 years, including an 80 percent increase in sales tax revenues from restaurants.10

MOAB, UT

In 1990, Western Spirit Cycling, based in Moab, Utah, consisted of two employees who ran three trips a year. In 2006, the company employed 35 people and ran hundreds of trips in states throughout the country, spending cash in hotels, grocery stores, restaurants, and bike shops in small towns across the U.S.

Jump-starting Rural Economic Development

The jobs, tax revenues, and business created by the Active Outdoor Recreation Economy are the lifeblood of rural communities that rely on recreation tourism to enjoy a high quality of life.

According to the US Department of Agriculture, rural tourism and recreational development:

• Spikes employment growth rates
• Buoy earnings and income levels
• Lowers local poverty rates
• Shepherds improvements in local educational attainment and health9

Mining, logging, oil and gas, and agriculture are the traditional backbone of many rural economies. Today, the sustainable Active Outdoor Recreation Economy has joined that list as communities seek to create a balanced and stable base for long-term economic and community development.

---

The Active Outdoor Recreation Economy Means Business

Americans spend $289 billion each year on gear, trip-related items, and services to enjoy active outdoor recreation.
Ringing Up $289 Billion in Retail Sales

The most obvious boost the Active Outdoor Recreation Economy gives to the nation comes at the cash register. Participants spend their money on both gear and trips.

- Quality gear is key to a fulfilling outdoor experience, and Americans spend $46 billion each year on their equipment, apparel, footwear, accessories, and services.
- Americans want to spend money on active outdoor excursions, and they spend $243 billion on trips ranging from a summer camping vacation to an afternoon family bike ride.

That adds up to a whopping $289 billion spent annually on active outdoor recreation gear and trips, a bigger direct expenditures contribution to the U.S. economy than that of the securities, commodity contracts, and investments industry ($277 billion).\(^{11}\)

An Overlooked Economic Giant

The Active Outdoor Recreation Economy is big business. It ranks alongside and even dwarfs other major economic sectors in the U.S., such as telecommunications, hospitals and motion pictures and videos.

\(\text{PHARMACEUTICAL & MEDICINE MANUFACTURING}\ $144\)
\(\text{AUTOMOBILE & LIGHT TRUCK MANUFACTURING}\ $251\)
\(\text{TELECOMMUNICATIONS}\ $473\)
\(\text{SECURITIES, COMMODITY CONTRACTS, INVESTMENTS}\ $277\)
\(\text{POWER GENERATION & SUPPLY}\ $269\)
\(\text{LEGAL SERVICES}\ $232\)
\(\text{MOTION PICTURE & VIDEO INDUSTRIES}\ $89\)

\[\text{ACTIVE OUTDOOR RECREATION RETAIL SALES}\ $289\]

Note: The following expenditures were not included: outdoor-lifestyle-inspired purchases made by non–participants, the portion of a purchase that would have been made even if the respondent did not participate, purchases by minors, purchases by foreigners for U.S. products (goods and services) and purchases by foreigners during outdoor trips in the U.S., U.S. resident travel abroad, and large durable purchases such as boats and RVs. (See technical report for more details.)

\(\text{bureau of economic analysis, industry economic accounts, http://www.bea.gov/bea/dn2.htm}\)

\(\text{CASE STUDY}\)

Cuyahoga Valley National Park, OH

Do you think most visitors come to National Parks and National Forests for extended destination vacations? Think again. There were 273 million visits to National Parks in 2005, but only 13.8 million overnight stays.\(^{13}\) Over half of recreation visits to National Forests are day trips.\(^{14}\)

- Ohio’s Cuyahoga Valley National Park welcomed almost 2.9 million recreation visits in 2003, yet less than five percent were overnight trips.\(^{15}\)
- The 2.7 million day trippers spent over $44 million during their visits.
- Day trips stimulated 80 percent of the total visitor spending to Cuyahoga, supporting 1,296 local jobs.
The Ripple Effect Multiplies the Contribution of Sales

No economy exists in a vacuum. The $289 billion Americans spend on active outdoor recreation gear and trips circulates further through the economy, creating a virtuous cycle, known as the “multiplier” or “ripple” effect, which adds up to another $441 billion to create the $730 billion Active Outdoor Recreation Economy. This dynamic economy is a sum total of economic interactions that benefit all of America’s major economic sectors.

Think of a kayak slicing through the water. The kayak creates ripples in the water that move further away as they dissipate. Likewise, when a patron goes to an outdoor store and buys a kayak, the economic contribution is not limited to the money the consumer gives to the retail store. The purchase creates ripples that affect the suppliers of materials for the boat, the boat manufacturer, and the shipping company that transported the kayak.

Additionally, the outdoor store employee and the employees of the suppliers and manufacturers spend their paychecks on goods and services. This further economic contribution accumulates each time it passes through a different set of hands, yet is smaller at each touch point as the ripples grow smaller but continue to be felt.

---

**CASE STUDY**

**METHOW VALLEY, WA**

The Methow Valley trail system in north-central Washington includes nearly 125 miles of groomed paths for cross-country skiing, off-road bicycling, and horseback riding, attracting visitors from across Washington state and beyond.16

- Trail user (local, resident, non-local) expenditures average $1,469 per party, per trip.
- Nearly $4.5 million in direct expenditures are made annually to the Methow Valley economy by trail users.
- The ripple effect creates an additional $4.1 million economic contribution to the local economy.

---

**Note:** A conservative 10% of “secondary” trip expenditures were included for non-wildlife-based active outdoor recreation trips. Active outdoor recreation expenditures were made on the trip but the purpose of the trip was not primarily for recreation. However, expenditures would not have occurred unless recreation opportunities existed.

16 Methow Valley Sport Trails Association, prepared by Resource Dimensions; “Economic Impacts of MVSTA Trails and Land Resources in the Methow Valley,” July 2005
Beyond the Outdoor Industry

The Active Outdoor Recreation Economy reaches far beyond the outdoor industry, making major direct contributions to all the building-block sectors of the American economy, including manufacturing, transportation, and real estate.

AN ESSENTIAL COMPONENT OF THE AMERICAN ECONOMY

Active outdoor recreation spreads $730 billion to all U.S. economic sectors

- MANUFACTURING 26.2%
- TRANSPORTATION & WAREHOUSING 4.1%
- RETAIL TRADE 6.4%
- REAL ESTATE & RENTAL 6%
- ARTS, ENTERTAINMENT & RECREATION 3.2%
- ACCOMMODATIONS & FOOD SERVICES 13.6%
- FINANCE & INSURANCE 4.9%
- PROFESSIONAL – SCIENTIFIC & TECHNICAL SERVICES 4.2%
- INFORMATION 4.2%
- ALL OTHER SECTORS 27.2%

And $730 Billion Is Just the Beginning

This report took a conservative approach in defining expenditures related to active outdoor recreation. Many participants make additional big-ticket purchases that add to the national economy which were not included in this report.

- Over $30 billion of boat and other big-ticket sales from wildlife-based recreation were not added into this calculation of the Active Outdoor Recreation Economy.
- Only a small portion of the over $14 billion in recreation vehicle sales were included in this report.¹⁸
- Participants buy and lease land ($12 billion from wildlife based recreation alone), cabins, and second homes. This study does not take those property sales into account.

When you add in these big-ticket items and purchases for fishing, hunting and wildlife viewing, the Active Outdoor Recreation Economy pumps $900 billion into the U.S. economy each year.

FAST FACTS

- Americans spent 88 times more on bicycle-based recreation in one year than the total box office draw for Titanic, the top grossing movie of all time.¹⁷
- The Great Allegheny Passage, connecting Pittsburgh to the C&O Canal towpath leading to Washington, D.C., generated $7 million in direct spending in 2002. Bolstered by the growth of trail-related businesses, the Passage will stimulate an estimated $12 to $15 million in direct spending in 2007.²⁰
- Studies estimate that physically inactive individuals have 24 percent higher health-care costs than active individuals.²¹

²¹ www.cdc.gov
Conclusion

The $730 Billion Active Outdoor Recreation Economy Offers a Healthy, Sustainable Future for All Americans

The Active Outdoor Recreation Economy is a vital force in the national economy, yet is often overlooked. It supports nearly 6.5 million jobs and impacts all geographical regions of the country. It is inclusive of all gender, racial, ethnic, and religious groups. It pumps capital into major sectors of U.S. industry. The Active Outdoor Recreation Economy is sustainable year after year.

Furthermore, the $730 billion figure established by this report is just a small fraction of the deeper value that Americans place on the opportunity to recreate in nature. Major corporations make decisions on where to build and invest based upon the quality of life they can offer employees. Real estate and land near outdoor recreation opportunities has been shown to increase in value. There are compelling non-market benefits to a healthy Active Outdoor Recreation Economy (education, science, research, biodiversity), which can also multiply the economic contribution.

Beyond business, active outdoor recreation improves the physical health of the nation. Over 30 percent of adult Americans and 16 percent of children and teens are obese. Increased participation in outdoor recreation is a natural solution to this obesity crisis. Getting more Americans to participate in a stronger Active Outdoor Recreation Economy also reduces health-care costs and creates a greater sense of well-being and happiness for everyone.

Active outdoor recreation’s $730 billion contribution is essential to our economic foundation. The recognition and stimulation of this market force should be a prime concern to all Americans who value a flourishing, sustainable economy. But the true value of outdoor recreation cannot be quantified. It is a priceless American treasure.

* Sample sizes are detailed in the technical report.

** Source: American Sportsfishing Association – "Sportfishing in America: Values of Our Traditional Pastime," 2002

*** Source: International Association of Fish and Wildlife Agencies – "The Economic Importance of Hunting in America," 2002

^ Wildlife-based recreation activities (fishing, hunting, wildlife viewing) were derived from above sources which contain a greater level of details (including state information). Assumptions were made to align the methodologies of the wildlife-based studies with the Active Outdoor Recreation survey (other 5 activity categories). See technical report for details. Wildlife-based participation based on 16+ population. Other 5 activity categories based on 11+ - Wildlife-based participant populations used to derive incidence is the 2001 16+ population adjusted for each census division by the growth in national population from 2000 to 2005. Crossover participation data does not exist for wildlife viewing as defined by the USFWS and the 5 Active Outdoor Recreation categories. Census division figures will not add to nationwide figures due to larger national multipliers (greater leakages in smaller geographic region). D.C. wildlife figures are not included in the census trip expenditures but are included in the national figure.
SOUTHWICK ASSOCIATES, INC. OF FERNANDINA BEACH, FLORIDA, specializes in quantifying the economics of fish, wildlife, and outdoor-related activities. Founded in 1990, SA helps government agencies and industry understand the issues impacting people’s use of outdoor resources and the related retail and economic trends. www.southwickassociates.com

OUTDOOR INDUSTRY FOUNDATION (OIF) is a non-profit foundation established by Outdoor Industry Association. OIF’s charter is to increase participation in outdoor recreation and to encourage and support healthier active lifestyles. Through education, partnerships, programs, and advocacy, OIF is working to make active outdoor recreation the number one leisure activity in America. We invite you to join us on this important mission by making a long-term commitment to the health of our industry, our public lands, and our nation.
