SOLAR BRIEF SHEET:
How to Schedule GE Paths Classes

GE Paths are groupings of General Education course options that provide an in-depth exploration of a theme and a specific set of related learning outcomes. Students may opt to take multiple GE path courses to provide emphasis to their GE coursework.

How it Works
Students select one theme (Path) and take six courses (18 units) associated with it as part of their GE coursework. Although they are encouraged to remain within one path, they can sample across the different paths. They can opt in and out, there is no obligation to continue or finish the path. The program is open to all students regardless of GPA.

Follow these steps when scheduling a GE Paths class section:
1. Log into the myNorthridge Portal.
2. Go to SOLAR SA.
3. Go to Maintain Schedule of Classes.
4. Select the desired course from the Search Results.
5. Navigate to the class section identified by the GE Paths director.
6. Go to the Course Attribute section of the Basic Data page.
7. Click View All to see all attribute rows.
8. Click the plus (+) sign to create a new attribute row. Then enter:
   a. Course Attribute = GEPA
   b. Course Attribute Values = AC, AMC, AMS, ET, GS, HW, PS, SJ, or SR (Attribute Value provided by the GE Paths office)
9. Complete all required SOC fields.
10. Go to the Notes page and add the numbered note 9924.
11. Click SAVE.
