Magic Bottle

1. Question we hope to answer. Begin it with HOW or WHAT. Do not ask questions with yes or no answers.

2. Make a Hypothesis: What do you think the answer to your question is? Why do you think that?

3. How do you plan to find answers to your question?

4. What observations did you make?

5. What have you learned?

6. What is a new question that you have?

7. Make a Hypothesis: What do you think the answer to your question is? Why do you think that?

8. How do you plan to find answers to your question?

9. What observations did you make?

10. What have you learned?

11. What is a new question that you have?
