University	840	764	698	641	579
Grand Total	38,551	36,123	36,368	36,848	36,960

Headcounts have been updated to include all majors; previously, these counts included only first majors. Note, however, that students are only counted once within a department or college, even if they have multiple majors within the department or college. For this reason, row totals will not add up to the Grand Total in most cases - Some Parental Education information is not available before 1995 from lack of data. If you want to see the detailed ethnicity data please go to the BYOR dashboards.

Download icons: Image, Data, Crosstab, PDF, PowerPoint, Tableau Workbook

- From the pop-up menu, select Crosstab.

5. We recommend you select a “csv” or comma separated values file because the Excel files often have formatting that is problematic.

6. Once you have downloaded the file, open it using Excel.
