

Faculty Committee on Extended Learning

November 20, 2013

3:15 - 5:00 pm

Executive Conference Room, Bookstore Complex

Agenda

1. **Approval of October minutes**
2. **Program Review: Online Master of Public Health (MPH) in Health Education**
(Jennifer Kalfsbeek-Goetz and Sloane Burke)

Because the Master of Public Health (MPH) is an existing graduate degree program, approval is not required to run a version of the program through self-support. However, Tseng College welcomes commentary on new or changed graduate certificate and degree programs from the Faculty Senate Committee on Extended Learning. In this meeting, the committee will review the online MPH program, discuss any concerns, and/or vote to endorse the self-support program offering.

3. **Program Modification: MS in Tourism, Hospitality, and Recreation Management**
(Jennifer Kalfsbeek-Goetz, Al Wright, and Mechelle Best)

New or significantly modified graduate degree and graduate credit certificate programs are reviewed and approved by the faculty curriculum committee of the relevant college or program (for multidisciplinary programs – made up of faculty from each participating department) and then given final review and approval by the Educational Policies Committee or the Graduate Studies Committee of the Faculty Senate. This is the final step for program revision approval (new programs must also be approved at the CSU chancellor's level). The Tseng College dean also likes to have the review and commentary on new or changed graduate degree and graduate credit certificate programs from the Faculty Senate Committee on Extended Learning.

4. **Continued: Tseng College unit presentations by unit directors** (10 min. each)
 - **Academic Affairs** (John Binkley)
 - **Administration, Finance & Support Services** (Lih Wu)
 - **Marketing & Communications** (Joyce Feucht-Haviar and Cathy Williams)
5. **Discussion Topic: Changes to the Certificate policy**
(Joyce Feucht-Haviar and Patricia Miller)
