A meeting of The University Corporation Board of Directors was called to order by Chair Erika D. Beck at 3:01 p.m. on Tuesday, March 9, 2021 via Zoom Conference Call at California State University, Northridge. A quorum was present.

**Members Present via computer video and audio:**
Jacob Akopnik, Erika D. Beck, Mechelle Best, Harvey Bookstein, Miya Butler, Matthew Contreras, Colin Donahue, Ronald Friedman, Carlos Fuentes, Hamid Johari, Rose Merida, Dave Moon, Jerald Schutte, Ben Yaspelkis

**Members Absent:**
Michael Meeks, Michael Phillips

**Staff Present via computer video and audio:**
Heather Cairns, Rick Evans, Tim Killops, Cindy Ruan, Grace Slavik, Linda Turner, Karina Ward, Lih Wu

**Others Present via computer video and audio:**
Amy Berger, Elizabeth Corrigan, Sue Duits, Genevieve Evans Taylor, Omar Galvez, Nicole Hamzaeff, Catharin Kniazewycz, Brian Lacey, Charlene Manzueta, Kylene Ott, Mary Perry

---

**ITEM I  INTRODUCTIONS**

CSUN President and new Chair of The University Corporation Board, Dr. Beck introduced herself to the Board of Directors and meeting attendees. Executive Director, Rick Evans facilitated introductions of TUC’s Board of Directors.

**ITEM II  APPROVAL OF OCTOBER 19, 2020 MINUTES**

MSP (Fuentes/Schutte): That the minutes of the October 19, 2020 Board of Directors meeting be approved as circulated.

**ITEM III  CHARTWELLS HIGHER EDUCATION UPDATE**

Mr. Evans reported that Chartwells Higher Education (CHE) has provided excellent selections and service to the 200+ students living in housing. Additionally, CHE has maintained a safe environment, with the ongoing implementation of their COVID-19 mitigation plan which included all their employees receiving COVID tests twice monthly.

Kylene Ott, Chartwells District Manager, introduced Omar Galvez, Chartwells Resident District Manager, and Nikki Hamzaeff, Chartwells District Marketing Manager. Mr. Galvez presented an update on staffing, Fall COVID-19 Safety guidelines, and retail dining enhancements. Ms. Hamzaeff presented on student engagement programs including virtual teaching kitchens, monthly promotions, welcome back BBQ, and themed celebrations as well as the newly refreshed G’mos dining location. Ms. Hamzaeff also provided an overview on the various meal plans offered to on- and off-campus students.
Mr. Galvez reported on the changes made resulting from customer feedback received including hours of
service, increased food variety offered at the convenience store, and meal plan flexibility. Mr. Galvez also
provided a sustainability report on G’mos food offerings and operations.

Heather Cairns, Director of Administrative Services, presented on the opening plans for fall 2021 and spring
2022. For fall 2021 and spring 2022, the assumption is that there will be 25% and 70% respectively foot
traffic on campus. Ms. Cairns outlined the number of anticipated meal plan participants and which dining
locations will be open during the semester.

Dr. Schutte asked about an assembly bill that extends the numbers hours of paid leave for food service
worker during the COVID-19 pandemic. If TUC is still the owner of the Profit and Loss, how would this
affect the bottom line? Ms. Ott stated that if the assembly bill does go through, CHE would be required to
follow the letter of the law. Ms. Ott also stated that if there were an immediate need for associates there
is a people share program through Compass Group, the parent group of CHE. Dr. Schutte stated that
assembly bill 778 will require that public sectors will need to purchase their foods from California grown
products. Does CHE anticipate any problems with this bill? Ms. Ott stated that most of the purchasing is
local as part of CHE’s sustainability scorecard and does not foresee the assembly bill having an impact.

ITEM IV ORCHARD CONFERENCE CENTER & CATERING UPDATE

Ms. Cairns reported that the construction timeline remains on schedule. Due to the much smaller population
expected for Fall and the uncertainty around when groups may convene for meetings and special events,
the opening of the Orchard Conference Center (OCC) is scheduled for Spring 2022.

Tim Killops, Associate Director of Facilities and Operations, presented an update on the progress of the
construction at the OCC. Mr. Killops reported that the following items have been installed: ceiling, carpet,
HVAC system, divisible walls, sound deadening glass wall, floor tile, lighting, bathroom, kitchen, exterior
access ramp and railing. Mr. Killops stated that the estimated construction completion date is April 2021
and still within budget.

Mr. Galvez provided an update on the catering menus and student internships. Ms. Hamzaeff presented on
the marketing plan which will be customized to target different groups of customers. The website will be
robust with all the resources and information needed to book an event.

Ms. Cairns reported on the potential lunch offerings for the campus community. Due to the delay in the
hotel’s opening, there will be a longer than expected gap in an on-campus restaurant operation. TUC and
Chartwells are exploring the options which include pre-arranged small lunches in the OCC, dining at
Bamboo Terrace, and ordering ahead online from a dining location to take anywhere on campus. One focus
group with a few board members has been conducted with more to be scheduled with other stakeholders
and board members in the coming months.

Rose Merida asked if there were any students in the focus group and if there were opportunities for students
to be involved in the focus groups in the future. Mr. Galvez confirmed that students will be included in
future focus group meetings. Dr. Mechelle Best clarified that there were two different focus groups
mentioned and only one was pertaining to the OCC which involved a small group of board members that
were more directly involved with the faculty experience.
Mr. Donahue stated that there may be a demand for prepacked food options when more people return to campus. Ms. Ott explained a new catering platform “Mingle and Nosh” designed to be for boxed food offerings that can be for small to larger groups including individual meals or snack boxes.

Dr. Schutte asked if there was an option to install the second kitchen at the OCC so that the flex space could be used for luncheon if the hotel is delayed indefinitely? Mr. Evans stated that Profit and Loss for the OCC would be challenging if it required operating a lunch time restaurant. TUC/CHE is hesitant to consider a short- or long-term restaurant at the OCC. The OCC will be available for group lunches with reservations made in advance. There is electrical and piping roughed in at the kitchen to build a second line should there be a need in the future.

**ITEM V** myCSUNDigitalAccess AND FRESHMEN ACCESS PROGRAMS

Mr. Evans provided an overview on myCSUNDigitalAccess (MCDA), a form of “Instant Access”. Students get immediate access to their e-books, courseware, and other learning materials as well as hardcover books. With MCDA, upon registering for a class, the student is given access to their e-books and course materials immediately. The digital materials are loaded directly onto Canvas, free of charge for the first three weeks with an option to Opt-Out if they choose to purchase materials elsewhere. Students may also continue to use the materials past the three-week period and a charge is added to their account. Mr. Evans reported that this last fall, 12,000 CSUN students had at least one MCDA class, a threefold increase from the prior fall semester. MCDA provides affordability and access which Mr. Evans’ asserts can help close the equity gap.

Sue Duits, TUC’s Special Learning Materials Consultant, presented on the highlights on the survey of the Fall 2020 MCDA cohort and participating faculty. There was a 5.5% response rate of the 20,000 students surveyed. The survey results showed the following: only 26% of students purchased all their books, 88% of faculty indicated students performed better in class when they obtain their course materials, 79% of students accessed their course materials prior to or during the first week of class, 81% of faculty prefer the MCDA method of delivery, and 70% of students felt they were more prepared for their class. Opportunities for improvement included: better communication to students regarding the low cost of MCDA digital access, coordinating required setup in Canvas with participating faculty, and additional reminders of the opt-out deadline.

Jacob Akopnik commented that, as a student who has used MCDA for several classes, he found it helpful and easy to use. Mr. Akopnik preferred MCDA over other options available. Dr. Dave Moon commented that this is a very good first step, however the cost of textbooks is a barrier to student and more needs to be done in this regard. Ms. Duits stated that MCDA is optional and that there is a large selection of rental textbooks at a much lower cost available at the Campus Store. Mr. Fuentes stated that there is still a lower percentage of students of color purchasing textbooks; access to books for them is a significant problem. Dr. Schutte commented that assembly bill AB403 would essentially ban the practice of an immediate access platform like MCDA because it is “opt out”. The statewide senate will recommend that the bill is opposed.

Dr. Hamid Johari asked if a student needs to retake the course, would they need to pay a second time? Amy Berger, CSUN Campus Store Director, stated that it depends on the course and book title. Dr. Best asked if access to digital packages provided by the faculty expire? Ms. Berger stated that if it was a reader provided by the department or faculty, it can be set up so that there is permanent access to the material.
Mr. Evans reported that TUC is currently in discussions with Follett to implement a program to provide all incoming, first time freshmen with their required books and learning materials at no cost to the student for the first semester. Ms. Duits presented on the First Time Freshmen Access Program including pricing, number of book titles, logistics, delivery of course materials, and next steps. Matthew Contreras commented that this program is what the incoming freshmen students need right now. Mr. Akopnik, via the chat feature, stated that he agreed with Mr. Contreras.

**ITEM VI HOTEL PROJECT UPDATE**

Colin Donahue, Vice President for Administration and Finance, provided an update on the hotel project. Construction on the hotel was set to start in July of 2020 but was stopped due to the immediate impacts of the COVID-19 pandemic. The development team, led by Corvias, has continuous communications with CSUN and TUC. Although the Access and Option Agreement will expire at the end of March, TUC and CSUN are looking to continue the relationship with Corvias. Corvias remains committed to the viability of the project.

**ITEM VII ANNOUNCEMENTS**

There being no further business, the meeting adjourned at 4:26 p.m.

Respectfully submitted,

Colin Donahue, Recording Secretary
