8005.00 | Policy Management

Effective Date: 4/19/2010 | **Revised Date**: 4/19/2010

POLICY OBJECTIVE

The CSU Information Security policy defines the CSU Information Security Policy review process.

POLICY STATEMENT

The CSU Information Security Management Department shall be responsible for overseeing a documented annual review of this policy and communicating any changes or additions to appropriate CSU stakeholders. The CSU Information Security policy shall be updated as necessary to reflect changes in the CSU's academic, administrative, or technical environments, or applicable laws and regulations.

The policy may be augmented, but neither supplanted nor diminished, by additional policies and standards adopted by each campus.

Policies, standards, and implementation procedures referenced in the CSU Information Security policy must be developed by each campus through consultation with campus officials and key stakeholders.
