

Industrial Hygiene Technician

ACC Environmental Consultants, Inc., has an opportunity for an experienced Industrial Hygiene Technician to join our team. ACC, an Employee-Owned Company, is seeking an Industrial Hygienist with 1-3 years of experience. In this position you will be working on a variety of consulting projects in Southern California with occasional projects in Northern California.

IH Responsibilities:

- Industrial hygiene (IAQ, investigations, sampling, monitoring, assessments)
- Health and safety code compliance
- Developing and delivering EHS/Occupational Health and Safety training
- EHS assessments/general program compliance audits
- Regulatory compliance
- Occupational safety surveys/inspections
- Workstation ergonomic evaluations with support from CIH
- Environmental issues (air, wastewater, hazardous waste)
- EHS & ISO 14001 and OHSAS 18001 program development
- Writing technical reports

Education/Qualifications:

- Requires 1-3 years of EHS work experience or currently enrolled in EHS program
- Prior experience with IH sampling and monitoring
- CIH qualifying B.S. degree in Industrial Hygiene or related field
- Candidate working toward CIH certification
- Willing to travel by plane outside the region, work evenings and weekends as projects require
- Be in good physical health and able to wear respiratory and other personal protective equipment
- Ability to climb ladders, navigate crawl spaces, lift/carry equipment (generally up to 50 lbs), stand for long periods of time
- Valid driver's license and reliable transportation

Send resumes to acclaih@accenv.com.
