Workshop/Course Description - This workshop offers participants the opportunity to learn and review the principles of financing and real estate usage in ASL, specifically, temporal markers, topicalization, use of space and tokens. As a group, pairs and individually, the participant will incorporate banking, mortgage loans, retirement planning, social security and real estate in use of space depicting noun and verbs and 7 ASL expansions. The session will focus on understanding the scope of financing. Through various activities, the presenter will provide a fun practical approach to ASL usage.

Educational Objectives:

Participants will:

- Learn the difference between 7 ASL expansions and how to give accurate and clear, concise information on financing aspects.
- Understand the topic of banking, mortgage loans, real estates, social security income, retirement planning, health/auto insurance.
- Develop and demonstrate the ability of using the space to practice financing scenarios.
