

Biology Colloquium

Also sponsored by: *Maximizing Access to Research Careers (MARC)

\$BEER; ^MBGSA; #Fulbright Outreach Program

SPRING 2020

Jan. 31	#Sushmita Mitra	Indian Statistical Institute	Intelligent biomedical image analysis
Feb. 7	Peyman Saadat	The Reproductive Fertility Center	Fertility 101: An introduction to reproductive medicine
Feb. 14	Hollie Putnam	University of Rhode Island	Avenues of marine invertebrate acclimatization in response to rapid environmental change
Feb. 21	*Sonya Neal	UC San Diego	The role of rhomboid pseudoproteases in ERADicating misfolded membrane substrates
Feb. 28	\$Maureen Kearney	American Association for the Advancement of Science	Science: The endless frontier turns 75 – How is U.S. science policy evolving?
Mar. 6	\$Melanie Murphy	University of Wyoming	From genes to landscapes – distribution and connectivity of species in a changing world
Mar. 13	*Shivley Scott	VA Palo Alto Healthcare System	The Role of dose, neurocognitive functioning, and psychosocial factors on medication adherence in opioid agonist treatment patients
Mar. 20	NO SEMINAR	Spring Break!	
Mar. 27	^Will White	Oregon State University	Linking models and data for adaptive management of Marine Protected Areas
Apr. 3	*Gina Garcia	U. Pittsburgh	On Becoming a Hispanic Serving Institution
Apr. 10	Patrick Allard	UCLA	How organisms retain a memory of environmental exposures
Apr. 17	*Denise Chavira	UCLA	Childhood anxiety: developing new treatments for underserved communities
Apr. 24	*Nita Maihle	University of Mississippi	Precision medicine: cancer
May	Pavak Shah	UCLA	From structure to function: Dissecting neuronal development with in toto microscopy

Fridays at 2 PM Location: CR 5125
Organizers: Drs. Ray Hong and Maria Elena Zavala
