COMPANY INFO

Established and growing environmental rental Equipment Company has a career opportunity for an Environmental Technician.

Established in 1995, with 11 offices nationwide Field Environmental Instruments' basic business strategy and customer-centric philosophies continue to change the environmental equipment industry.

FEI offers candidates a comprehensive compensation package, friendly atmosphere and a knowledgeable internal-support team to aid your career development.

Job Description:

We are looking to add a reliable, versatile multi-tasking individual with experience (or interest) in the environmental consulting/safety industry.

Positions open while you are in school close to CSUN.

The Environmental Technician is part of the Field Environmental Instruments team and will be responsible for helping with maintenance and calibration of environmental equipment.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Maintaining and calibrating portable analytical equipment.
- Working in unison with other FEI branch locations in the United States.
- Provide customer service and support to existing and potential customers.
- Oversee the standard of equipment needed to meet and exceed customer expectations. Includes calibration, cleaning, functioning, parts replacement and proper storage.
- Ensures compliance with corporate shipping and routing requirements.

THE SUCCESSFUL CANDIDATE WILL HAVE:

- Proven team-leadership abilities.
- Personal initiative capability.
- Superior customer service, quality and time management skills.
- Work in a fast paced team environment.
- Able to implement directives from corporate.
- Basic computer skills in Microsoft Office focusing on Word, Outlook, Excel and Power Point.
- Previous environmental consulting/ engineering/ safety experience a plus, but not necessary.
- Valid driver's license necessary

Knowledge of, or experience in, the environmental consulting/health & safety industry a plus but not required. Extensive on-the-job training will be provided.

Hourly position.
