Notes:

- Each student will complete an individual field calendar indicating actual days and hours of internship.
- Holidays, sick days, and personal days are not included in required days, although students have the ability to be away from internship for such purposes by modifying their internship schedule and making-up days missed (with agency Field Instructor and Faculty Field Liaison approval).
- Start and End Days cannot be altered without permission from the Field Department.
- Individual agencies may require students to provide some coverage over holiday and/or school breaks. Specifics are to be outlined in Learning Agreement.
- *Certain agencies may require hours or days beyond minimum numbers stated above. This most often occurs in the second year in association with obtaining PPSC hours, stipends, and medical interning.
